Books and Journals from  
Cambridge University Press

Cambridge publishes a range of high-quality books and journals on the theory and practice of engineering, in communications, information theory, signal processing, networks, RF and microwave, circuits and devices, materials science and polymer research, applied photonics, thermal-fluids, mechanics, aerospace, and chemical engineering.

# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 74, 2021, which includes print and electronic access, is £737 (USA, Canada and Mexico US \$1329) and includes delivery by air; single parts are available at £134 (USA, Canada and Mexico US \$240) plus postage. The electronic-only price available to institutional subscribers is £570 (USA, Canada and Mexico US \$1041). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 74 • NUMBER 1 • JANUARY 2021

## CONTENTS

<b>How Fast Can Our Horses Go? Measuring the Quality of Positioning Technologies</b> <i>Anahid Basiri</i>	1
<b>GPS and Galileo Triple-Carrier Ionosphere-Free Combinations for Improved Convergence in Precise Point Positioning</b> <i>Francesco Basile, Terry Moore, Chris Hill and Gary McGraw</i>	5
<b>Precise Single-Frequency Positioning Using Low-Cost Receiver with the Aid of Lane-Level Map Matching for Land Vehicle Navigation</b> <i>Fei Liu, Yue Liu, Zhixi Nie and Yang Gao</i>	24
<b>A Multi-Station Troposphere Modelling Method Based on Error Compensation Considering the Influence of Height Factor</b> <i>Qing Zhao, Shuguo Pan, Chengfa Gao, Longlei Qiao, Wang Gao, Ruicheng Zhang and Guoliang Liu</i>	38
<b>On Generalised Single-Heading Navigation</b> <i>Nicoleta Aldea and Piotr Kopacz</i>	60
<b>Decision Tree and Logistic Regression Analysis to Explore Factors Contributing to Harbour Tugboat Accidents</b> <i>Remzi Fiskin, Erkan Cakir and Coşkan Sevgili</i>	79
<b>An Adaptive Vector Tracking Scheme for High-Orbit Degraded GNSS Signal</b> <i>Chenyang Jiao, Xinlong Wang, Dun Wang, Qunsheng Li, Jinpeng Zhang and Yuanwen Cai</i>	105
<b>Alternative Manoeuvres to Reduce Ship Scour</b> <i>Marcella Castells-Sanabra, Anna Mujal-Colilles, Toni LLull, Jordi Moncunill, F.X. Martinez de Osés and Xavi Gironella</i>	125
<b>A New Method of Real-Time Kinematic Positioning Suitable for Baselines of Different Lengths</b> <i>Jinhai Liu, Rui Tu, Rui Zhang, Xiaodong Huang, Pengfei Zhang and Xiaochun Lu</i>	143
<b>Vessel Trajectory Prediction Using Historical Automatic Identification System Data</b> <i>Danial Alizadeh, Ali Asghar Alesheikh and Mohammad Sharif</i>	156
<b>Geolocal – A New System for Geo-Referencing: Analysis of Base Distribution</b> <i>Eduardo P. Macho, Sergio V.D. Pamboukian and Emilia Correia</i>	175
<b>Mars's Moons-Induced Time Dispersion Analysis for Solar TDOA Navigation</b> <i>Yang-yang Li, Jin Liu, Xiao-lin Ning, Xiao Chen and Zhi-wei Kang</i>	188
<b>Astronomical Observations of the 1869 Powell Expedition Through the Grand Canyon</b> <i>Lars Bergman and Robin G. Stuart</i>	212
<b>The Stellar-INS Navigation Performance Influence Mechanism of Star Vector Orientation in the Field of View</b> <i>Chunxi Zhang, Yanqiang Yang, Hao Zhang and Xiaowen Cai</i>	234
<b>Evaluating the Latest Performance of Precise Point Positioning in Multi-GNSS/RNSS: GPS, GLONASS, BDS, Galileo and QZSS</b> <i>Jian Chen, Xingwang Zhao, Chao Liu, Shaolin Zhu, Zhiqiang Liu and Dongjie Yue</i>	247
