Hibistat[®]. Return the trust.

Waterless, fast, effective antimicrobial protection.

Hibistat[®], a waterless alternative to liquid soap, provides rapid bactericidal action when routine hand washing is not possible or convenient. The alcohol + chlorhexidine gluconate (CHG) formula provides immediate and *persistent* activity. Hibistat[®] has a moisturizing formula which allows for multiple daily uses. Portable and convenient, Hibistat[®] may contribute to increased hand washing compliance rates, as well as confidence in personal and patient protection. To find out more, call **1-800-843-8497** today.

FACULTY SEARCH

Department of Internal Medicine, Division of Infectious Diseases

The Ohio State University

The Division of Infectious Diseases has an opening for an Assistant or Associate Professor in the area of Hospital Epidemiology and Infection Control. Candidates should have an MD, MD/MPH, or MD/PhD. The individual will be responsible for development of an antimicrobial management program for the OSU Hospitals, consisting of OSU, James Cancer, University Hospitals East and the soon to be opened Richard M. Ross Heart Hospital. Board Certification in IM, board eligibility/certification in ID and an interest in antimicrobial resistance mechanisms are desirable. The individual will work closely with the Epidemiology and Pharmacy Departments to achieve their goals. The position provides potential to perform research related to Hospital Infection Control.

Applications should include a curriculum vitae, description of research experience, and a list of three references. Information about the University can be obtained by contacting our web site (<http://www.osu.edu>)

Send application to:
Larry Schlesinger, M.D.
Director, Division of Infectious Diseases
456 W. 10th Ave. Room 4715
Columbus, OH 43210

The Ohio State University is an Equal Opportunity/Affirmative Action Employer. Qualified women, minorities, Vietnam-era veterans and individuals with disabilities are encouraged to apply.

For your next outbreak investigation ...

With more than 40 years of experience, Christiana Care's ID Lab offers fast, individualized service and competitive pricing for DNA analysis of bacteria and fungi, using:

- Pulsed field gel electrophoresis (PFGE)
- Ribotyping

... trust our world-class Infectious Disease Lab

Review our complete list of services and fees on our Web site: www.christianacare.org Click on our link under Patient Care.

- Antifungal susceptibility testing
- Anaerobe susceptibility testing
- Antimicrobial susceptibility testing (MIC and MBC)
- Serum bactericidal titers
- Synergy testing (fungal and bacterial)
- Time kill curves
- In-vitro studies, including evaluation of new antimicrobial and antifungal agents
- In-vitro support of clinical studies
- In-vitro microbiology support for pharmaceutical companies seeking a central laboratory for clinical trials

Directed by Joel D. Klein M.D., FAAP, the Christiana Care ID Lab is a CAP-accredited and CLIA-approved laboratory, and utilizes all NCCLS guidelines for susceptibility testing.

Ranked consistently among America's Best Hospitals, Yale-New Haven Hospital, an affiliate of Yale School of Medicine, is an exceptional place to continue your career. Located on the coast of Connecticut, halfway between New York City and Boston, we are a 944-bed teaching hospital offering Level-1 Acute Care in an environment with cutting-edge technology, equipment and procedures.

ASSOCIATE HOSPITAL EPIDEMIOLOGIST

Working in close collaboration with the Hospital Epidemiologist, you will actively support the hospital epidemiology program – participating in all relevant teaching and research activities, and taking a key role in performance improvement and patient safety initiatives. Further, a faculty appointment at the Yale University School of Medicine is available to qualified candidates, commensurate with experience. You must be an Infectious Disease trained physician with experience or training in healthcare epidemiology, and be board certified or board eligible in Infectious Disease as well as eligible for licensure in Connecticut. Interested applicants should submit a curriculum vitae, publications list and the names of at least three references to: Recruitment and Staffing, Yale-New Haven Hospital, 20 York Street, Dana 1, New Haven, CT 06510; fax: (203) 688-6670; or email: ann.lacamera@ynhh.org.

EEO/AA

The Society for Healthcare Epidemiology of America

2003 SHEA/CDC Fall Training Course in Healthcare Epidemiology

Program

The program will be held October 25-28, 2003 at the Sheraton San Diego Hotel and Marina, San Diego, CA. Denise Cardo, MD, Loreen A. Herwaldt, MD, Timothy W. Lane, MD, and Gina Pugliese, RN, MS, will co-chair this program. The program, developed by the Society for Healthcare Epidemiology of America (SHEA) and the Centers for Disease Control and Prevention (CDC), is intended for infectious disease fellows and new hospital epidemiologists. It emphasizes hands-on exercises in which participants work in small groups to detect, investigate, and control epidemiological problems encountered in the healthcare setting. These work sessions are supplemented with lectures and seminars covering fundamental aspects of healthcare epidemiology and surveillance, epidemic investigation, transmission, and control of nosocomial infections, disinfection and sterilization, employee health, isolation systems, regulatory compliance, and quality improvement.

Who Should Attend

You should attend if you are a healthcare epidemiologist or an infection control practitioner or if you are looking for a course that will provide you with the most current information concerning infection control practices and epidemiological methods in health care. This fundamental program will provide you with opportunities to find solutions in real situations that will occur in the healthcare setting. Intensive problem solving sessions are supplemented with lectures and seminars presented by leading authorities.

Jonathan Freeman Scholarships

Five (5) Jonathan Freeman Scholarships in the amount of \$500 each will be awarded to infectious disease fellows to defray expenses incurred in attending the training program. In addition to the \$500 amount, each scholarship winner will receive complimentary registration in the training course.

Interested fellows must submit a letter of no more than one (1) page describing why they would like to have additional training in healthcare epidemiology. A letter

from the fellow's program director outlining the applicant's qualifications and suitability for the course also is required. The deadline for receipt of scholarship applications for the course is September 5, 2003. The SHEA Educational Activities Committee will select the scholarship recipients based on review of these letters. Winners will be notified before the end of September.

Nominations

Please send scholarship applications to:

SHEA/CDC
c/o The Society for Healthcare Epidemiology of America
19 Mantua Road
Mt. Royal, NJ 08061

Fees

Individual Registrants	\$625
Fellows in Infectious Disease	\$450

Credits

The Society for Healthcare Epidemiology of America (SHEA) is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Society for Healthcare Epidemiology of America designated this continuing education activity for up to 26 hours in Category 1 of the Physician's Recognition Award of the American Medical Association.

General Course Information

Information regarding the schedule, hotel and travel accommodations, discount airfare, and course fees are available from SHEA (856)-423-7222. NOTE THAT APPLICATION FOR A SCHOLARSHIP DOES NOT CONSTITUTE ENROLLMENT IN THE PROGRAM. This must be done separately.
