BELHAVEN/SPRI POLAR RESEARCH SERIES

Published by Belhaven Press in association with Scott Polar Research Institute

Satellite remote sensing of polar regions

Robert A. Massom

Describes the capture, processing and use of images taken from satellites of the polar regions and their applications to study of ice and snow, and of high latitude meteorological, biological and oceanic variables. It provides also a reference manual for all satellites from 1960. 288 pages, illustrated, hardback. ISBN 1 85293 179 5. £39.50. June 1991.

The Soviet Maritime Arctic

Lawson A. Brigham (editor)

Examines the history, environment, transport systems and strategic importance of the Soviet Union's Arctic territory and sphere of influence. This book also contains material on Soviet Antarctic policy and reprinted documents on environmental and strategic policy. 224 pages, illustrated, hardback. ISBN 1 85293 169 8. £37.50. April 1991.

Antarctica and global climate change

Colin Harris and Bernard Stonehouse (editors)

A state-of-knowledge overview of Antarctica's role in a world of changing climates. The contributors are prominent British and New Zealand scientists, whose research spans both East and West Antarctica and the Southern Ocean. 192 pages, illustrated, hardback. ISBN 1 85293 187 6. £33.00. July 1991.

Arctic homeland: kinship, community and development in Northwest Greenland

Mark Nuttall

Based on extensive field research, examines the anthropology of the Greenlandic Inuit, the nature of their culture, their relationship with their meagre resource base and their responses to change. 196 pages, illustrated, hardback. ISBN 9 781852 932251. £37.50. May 1992.

Obtainable by mail order from:

Scott Polar Research Institute, University of Cambridge, Lensfield Road, Cambridge CB2 1ER UK.

THE ANTARCTIC TREATY HANDBOOK

(Seventh edition, October 1990)

IS AVAILABLE FOR SALE FROM THE
SCOTT POLAR
RESEARCH INSTITUTE

Edited by Dr J. Heap and published by the British Foreign and Commonwealth Office, the Antarctic Treaty Handbook reproduces material arising from Antarctic Treaty deliberations, including recommendations from consultative meetings and separate instruments dealing with seals, living resources and mineral resources.

Now in four parts (not sold separately): Part 1, General measures: Part 2, The Antarctic environment: Part 3, The Antarctic Protected Area System: Part 4, Other components.

Price £20.00 (US\$40.00) including postage and packing. For second class air mail include £5.00 (US\$10.00) per copy extra.

SPRI POLAR SYMPOSIA AND SPRI POLAR MONOGRAPHS

TWO NEW SERIALS FROM POLAR
PUBLICATIONS, SPRI.

SPRI Monograph 1.

The commercial exploitation of sea mammals at Iles Crozet and Prince Edward Island before 1850. Rhys Richards. 19 p. £3.50

SPRI Symposium 1.

Human factors in polar psychology: a symposium. Ed. A.J.W. Taylor. 49 p. £7.50.

The first issues in the series are now available by mail order. New titles will be announced shortly in *Polar Record*.

ANTARCTIC Science

Editor in Chief:

David W H Walton *Life Sciences & Oceanography*

Editors:

Michael J Rycroft *Atmospheric Sciences & Michael R A Thomson Earth Sciences & Glaciology*

Editorial Office: *British Antarctic Survey, Natural Environment Research Council,
High Cross, Madingley Road, Cambridge CB3 0ET, United Kingdom*

Telephone: Cambridge (0223) 61188 Telex: 817725 BASCAM G Fax: (0223) 62616

As the only continent entirely dedicated to scientific use, Antarctica occupies a special place in international relations. In recent years scientific activities in and around the continent have markedly increased, resulting in a rapidly growing but increasingly diffuse literature. *Antarctic Science*, launched in 1989, was conceived both as a response to this trend and as an attempt to provide a focus for many of the interdisciplinary interests that characterize Antarctic studies.

Submission of articles

All articles should be sent to the *Editorial Assistant* at the *Editorial Office, British Antarctic Survey*. All submissions must be in English. Authors whose first language is not English are advised to seek assistance with

their articles before submission. Articles submitted should not be under consideration for publication elsewhere. There is no fixed length for contributions but all should be as concise as possible. The acceptance of all articles will be subject to comments from two independent reviewers.

Subscription Information

Antarctic Science is published quarterly. Institutional subscription rates for 1991 are £63.00 (UK), £72.50 (overseas) and US\$132.50 (USA & Canada). Personal subscription rates for 1991 are £35.00 (UK), £42.00 (overseas) and US\$75.00 (USA & Canada). All rates include postage plus accelerated delivery to subscribers in all areas of the world outside Europe.

CAMBRIDGE

Polar and Glaciological Abstracts

Editor

WILLIAM MILLS, Scott Polar Research
Institute, Cambridge

Polar and Glaciological Abstracts is the first specialist abstracting publication to offer comprehensive coverage of the literature of the world's polar regions. Produced by the library of the Scott Polar Research Institute (which has one of the largest polar library and information services in the world), it provides comprehensive and convenient access to the rapidly growing body of research and scholarship of all relevant disciplines. It scans over 900 series plus relevant books, reports and theses. Each issue contains author, subject and geographic indexes. These indexes are cumulated annually.

Subscription Information

Volume 3 in 1992. Published in January, April, July and October. £55 for institutions; £45 for individuals; airmail £14.50 per year extra. ISSN 0957-5073

Journal of Navigation

Editor

JOHN F. KEMP, Angmering, Sussex

The *Journal of Navigation* contains original papers on every aspect of navigation—over land and sea and through air and space—including those papers presented at the meetings of the Institute together with the following discussions. Papers cover every aspect of the subject from the highly technical to the descriptive and historical. Subjects include: electronics, astronomy, mathematics, cartography, command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, and financial planning and law. The journal also publishes selected papers and reports from study groups, and book reviews. Contributions come from all parts of the world.

Subscription Information

Volume 45 in 1992. Published in January, May and September. £77; airmail £11 per year extra. ISSN 0373-4633

Back issues

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

Advertising

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

Advice to contributors

Polar Record publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

Presentation

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

Articles should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

Notes are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

References (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

Illustrations. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

Contributions on disc

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and IBM PC compatible machines (3.5" discs). If in doubt, please consult the Editor.

Fax

Contributors and other correspondents are welcome to contact the Editor via Fax (UK) 223 336549
