Mirror of Medicine

A History of the *BMJ*

P. W. J. BARTRIP

The 150 year history of the *BMJ* is intimately connected with the history of medicine and the medical profession. In this authoritative study the historian P. W. J. Bartrip provides a shrewd and perceptive commentary on the *BMJ*'s progress, from its beginnings as an independent weekly, to its present standing as a major international publication, placing its history in the context of contemporary events.

To Mock Doctors' Rules

A History of Education in Public Health

Elizabeth Fee and Roy M. Acheson

This is the first book to examine and compare the historical and contemporary problems of education for public health in Britain and the United States. Here, historians of public health on both sides of the Atlantic compare and contrast the forces shaping the diverse patterns for public health, and the relationship of public health to medical education and practice.

Did ed, BMJ, murder his wife?

Supposedly based on rumoured events in the life of Ernest Hart, a great but undervalued editor of the *BMJ*, Frank Danby's novel *Dr Phillips: a Maida Vale Idyll* was first published in 1887. Unlike many popular Victorian novels it is concisely plotted; its style is pithy; the characters are sympathetic and believable; and the author's presentation of Jewish life in the late nineteenth century is uncompromisingly honest.

But is the character of "Dr Phillips" a portrait of Hart? In his introduction to the new Keynes Press edition Stephen Lock, present editor of the *BMJ*, places the novel in its literary and historical context and examines the character and achievements of Ernest Hart.

Beautifully printed and bound, and with illustrations by Tabitha Salmon, this edition of *Dr Phillips: a Maida Vale Idyll* will fascinate those interested in literature, history, and the *BMJ*.

Blood, Sweat, and Cheers

BY SIR IAN FRASER

In the *Blood, Sweat, and Cheers* of a surgeon's life the blood needs no explanation; the sweat is the hard work; the cheers are the satisfactions of getting good results. For Ian Fraser the sweat was increased as much of his early surgery was performed in the heat of battle in the second world war; and the cheers come also from his capacity to enjoy himself in almost any circumstances.

Former president both of the Royal College of Surgeons in Ireland and of the British Medical Association, Sir Ian Fraser is eminent in his profession, but his book is not about being eminent, it is about life and its pleasures and pains, told with zest and humour and delightfully pictured in Ghislaine Howard's illustrations.
