FREEDOM AND THE PUBLIC

Public and Private Morality in America

Donald Meiklejohn

This vigorous, eloquent discussion of American attitudes toward freedom goes to the heart of the confusion in which "it is not America who is free—only individual Americans." The author draws from traditional political theory and current policy debates on integration, freedom of speech, religion in the schools, and other issues to demonstrate the necessity for an American commitment to freedom as a public, as well as a private, good. Just published \$4.95

PUBLIC ADMINISTRATION AND DEMOCRACY

Essays in Honor of Paul H. Appleby

Roscoe C. Martin, editor

Fifteen essays by distinguished colleagues in the fields of public administration, political science, and economics explore vital issues relating to public administration, in this *Festschrift* for a truly "public man." The final essay, from Appleby's own writings, reflects his lifelong efforts to reconcile vigorous administration, which he held necessary, with democratic government, which he cherished. November \$7.95

THE TWO PARTIES AND THE TARIFF IN THE 1880's

S. Walter Poulshock

This new look at politics in the Gilded Age points to the tariff as *the* political issue of the 1880's, and shows how both major parties used the issue, revealing the differences between the parties by the way each viewed the tariff. November \$5.00

WORLD PEACE FOUNDATION

The World Peace Foundation announces completion of a three-year study of evolving international behavior of the American South since 1935, a thirty-year period during which Southerners changed from the regional group most favorable to international involvement to the one most hesitant about major spheres of world cooperation. The results of this research are reported in two recent volumes:

Alfred O. Hero, Jr., *The Southerner and World Affairs* (Baton Rouge: Louisiana State University Press, 1965, 676 pages—\$12.00), examines systematically changing public opinions toward foreign peoples, arms control, collective security, world trade, the Communist and neutralist worlds, foreign aid, and international organization. This volume initially considers trends in the South as a whole compared with the rest of the United States, and then comparative attitudes of major groups within the South—ethnic, religious, educational, socioeconomic, rural-to-metropolitan, Black Belt-Piedmont-Mountain, etc. Southern views on international relations are traced to values, traditions, and racial and economic developments in the South, as well as to shifts in American foreign policy. *The Southerner and World Affairs* interprets nearly a thousand surveys of opinion, extensive mass-media audience research, content analyses of 53 Southern newspapers, and special interviews of 1,100 influential Southerners in 1959-1963.

Charles O. Lerche, Jr., *The Uncertain South: Its Changing Patterns in Foreign Policy* (Chicago: Quadrangle Books, 180 N. Wacker Drive, 1964, 324 pages—\$6.95), examines changing voting patterns of Southern Congressmen and pertinent forces operating on them from diverse Southern constituencies. These two detailed research reports may be purchased at bookstores or directly from the publishers.
