The Confucian's Progress

Autobiographical Writings
in Traditional China

Pei-yi Wu

Challenging the widely held belief that autobiography is a unique product of the West, Pei-yi Wu demonstrates that writing about the self did thrive in one non-Western civilization. The pages of this first full-length treatment of Chinese autobiography teem with fascinating individuals. Affording the reader a view of some never before examined aspects of the Chinese psyche, *The Confucian's Progress* is also an accessible introduction to Chinese history and literature.

Sung Dynasty Uses of the *I Ching*

*Kidder Smith, Jr., Peter K. Bol,
Joseph A. Adler, and Don J. Wyatt*

The *I Ching*, or *Book of Change*, has been one of the two or three most influential books in the Chinese canon. It has been used by people on all levels of society, both as a method of divination and as a source of essential ideas about the nature of heaven, earth, and humankind. During the eleventh and twelfth centuries, Sung dynasty literati turned to it for guidance in their fundamental reworking of the classical traditions.

This book explores how four leading thinkers—Su Shih, Shao Yung, Ch'eng I, and Chu Hsi—applied the *I Ching* to these projects. Each used the *Book of Change* in strikingly different ways, yet each claimed to find in it a sure foundation for human values. Their work established not only new meanings for the text but also new models for governance and moral philosophy that would be debated throughout the next thousand years of Chinese intellectual history.

Orphan Warriors

Three Manchu Generations and the End of the Qing World

Pamela Kyle Crossley

Pamela Crossley explores the relationships between cultural decline and cultural survival, polity and identity, ethnicity and the disintegration of empires, all of which frame much of our understanding of the origins of the modern world.

"A truly outstanding work, brilliantly researched and engagingly written. It is essentially a rewriting of the events of modern Chinese history from a Manchu perspective. Having read this book, most people will never be able to think of Qing and Republican China in quite the same way again."

Śiva's Warriors

The *Basava Purāṇa* of Pāḷkuriki Somanātha

Translated from the Telugu by Velcheru Narayana Rao

Assisted by Gene H. Roghair

Here is the first translation into English of the *Basava Purāṇa*, a fascinating collection of tales that sums up and characterizes one of the most important and most radical religious groups of South India. Written in Telugu in the thirteenth century, the *Basava Purāṇa* is an anthology of legends of Viraśaiva saints and a hagiography of Basaveśvara, the twelfth-century Viraśaiva leader. Although Telugu is one of the major cultural traditions of India, until now there has been no translation or exposition of any of the Telugu Viraśaiva works into English.

Suicidal Narrative in Modern Japan

The Case of Dazai Osamu

Alan Wolfe

Dazai Osamu (1909–1948) is one of Japan's most famous literary suicides. In this first deconstructive reading of a modern Japanese novelist, Alan Wolfe draws on contemporary Western literary and cultural theories and on a knowledge of Dazai's work in the context of Japanese literary history to provide a fresh view of major texts by this important literary figure.

"Wolfe's book is the only serious attempt to apply deconstructive techniques to modern Japanese literature. It is intimately conversant with recent textual theory, comparative in spirit, and critical in a way that speaks to a far broader audience than that of Japan specialists."

Travels of a Genre

The Modern Novel and Ideology

Mary N. Layoun

In this bold, insightful work Mary Layoun investigates the development of literary practice in the Greek, Arabic, and Japanese cultures, which initially considered the novel a foreign genre, a cultural accoutrement of "Western" influence. Offering a textual and contextual analysis of six novels representing early twentieth-century and contemporary literary fiction in these cultures, Layoun illuminates the networks of power in which genre migration and its interpretations have been implicated. She also examines the social and cultural practice of constructing and maintaining narratives, not only within books but outside of them as well.

"The most important study of Javanese religion since Clifford Geertz's *Religion of Java* (1960). An ethnographically rich and historically detailed portrait of the last Hindu enclave in Muslim Java, Hefner's work is also a compelling account of the symbolic processes involved in religious conversion. . . . JAPAN'S UNEQUAL TRADE

by *Edward J. Lincoln*

Japan is in the midst of major economic and social changes that are altering its relationship with the world. Lincoln contends that this does not mean the U.S. and other nations can end their pressure on Japan to continue opening its markets. This thorough and timely work focuses on the question of access to Japanese markets, Japan's pattern of trade on imports, the consequences of large trade, and current account imbalances. He concludes with strong arguments against abandoning our free trade ideal.

Acclaim for Lincoln's previous book,
Japan: Facing Economic Maturity:

"Lincoln excels in describing the role of the government in fostering brisk economic growth . . . well written and organized."

The Early Years of a Dutch Colonial Mission

The Karo Field

This narrative history of a Dutch Reformed mission among the Karo of North Sumatra chronicles the field's first fifteen years, 1889–1904. Kipp examines the missionaries' assumptions and values, describes how they contrasted themselves with the government and capitalist businesses, and explores the difficulties of translating Christianity across a great gulf. Combining history and anthropology, this book exemplifies an unconventional use of historical materials for ethnographic ends.

Song among the Ruins

William J. Schull

Four years after the U.S. bombing of Hiroshima and Nagasaki, geneticist William Schull set out on a 40-year project, under the auspices of the Atomic Bomb Casualty Commission, to investigate genetic damage among children of atomic bomb survivors. This captivating document not only unveils the single most important scientific basis we have for estimating the biological risks of ionizing radiation exposure, it also recounts the moving odyssey of this Westerner in Japan as the nation embarked on the awesome task of reconstructing its culture. Through Schull's keen eyes we observe the nation's gravitation toward things American during the Occupation years followed by a rekindling of national spirit in the 50s that has allowed Japan to surpass, in peacetime, the economic accomplishments of the nation it could not defeat in war.

Divine Passions

The Social Construction of Emotion in India

Edited by OWEN M. LYNCH

Drawing on rich ethnographic data from emotion-charged scenarios, these essays question Western academic theories of emotion, particularly those that reduce emotions to physiological sensations or to an individual's private feelings. Presenting an alternative view of emotions as culturally constructed and morally evaluative concepts grounded in the bodily self, the contributors help dispel some of the West's persistent misconceptions of Indian emotional experience.

The Ch'ang-chou School of New Text Confucianism in Late Imperial China

BENJAMIN A. ELMAN

Scholars have generally agreed that the story of New Text Confucianism in late imperial China centers on K'ang Yu-wei and the late 19th-century political reforms he took credit for after fleeing China in 1898. Here, Elman explores the roots of New Text ideas and shows that Confucians first dissented from the orthodox *raison d'être* of the imperial state over three hundred years earlier, during the transition from the late Ming to early Ch'ing dynasties.

POLITICAL PAMPHLETS from the INDIAN SUBCONTINENT

Editorial Adviser: Granville Austin
Research Fellow, St. Antony's College, Oxford University

“ *As important primary materials for the study of parties and politics in South Asia, the availability of these materials on microfiche will be welcomed by all serious scholars* ”

Robert L. Hardgrave, Jr.
Professor of Government and Asian Studies
University of Texas at Austin

India—the world's largest democracy—boasts an unusually rich and voluminous political literature. Popular pamphlets, reflecting the entire Indian political spectrum, compete for mass support.

Now, a new microfiche collection from UPA preserves more than 2,000 English-language Indian political pamphlets. This fascinating material documents the building of a modern democratic polity in an ancient society. And it brings into focus processes of political change throughout the Third World.

Explore a rare and fragile resource

Spanning from 1915 through the present day, these pamphlets allow researchers and students to trace the background and development of modern Indian political thought. The material illuminates key political events and personalities, from the early days of the Independence movement to the modern Indian Republic.

UPA has filmed these rare and fragile materials from the holdings of the Library of Congress. This collection of Indian pamphlets ranks among the world's best. Few libraries anywhere—even in India—hold more than a small portion of this material.

Analyze parties, policies, personalities

Political Pamphlets from the Indian Subcontinent reflects the entire Indian ideological spectrum. It includes polemical tracts, policy statements, ideological manifestos, propaganda, party constitutions and rules, and a wide variety of other materials.

Cries for Democracy

Writings and Speeches from the
1989 Chinese Democracy Movement

Edited by Han Minzhu

Preface by Yan Jiaqi

Introduction by Jonathan Spence

Here is a vital look at the powerful and tragic story of China's 1989 Democracy Movement in the words of the participants. Its rich collection of translated writings, speeches, and documents—posters, handbills, poems, movement articles and government statements—chronicles the unrest and determination behind the scenes in Tiananmen Square. A descriptive history of recent social and political life in China weaves the writings into a compelling narrative. *Cries for Democracy* movingly evokes the idealism and courage of a movement that captured the imagination of people throughout the world.

Hiroshima

Three Witnesses

Edited and translated by Richard H. Minear

Three Japanese authors of note—Hara Tamiki, Ota Yoko, and Toge Sankichi—survived the bombing of Hiroshima only to shoulder an appalling burden: bearing witness to the ensuing horror. Between 1945 and 1952, they published the premier first-person accounts of the atomic holocaust. Forty-five years have passed, yet this volume contains the first complete English translation of Hara's *Summer Flowers*, the first English translation of Ota's *City of Corpses*, and a new translation of Toge's *Poems of the Atomic Bomb*. No reader will emerge unchanged from reading these compelling works.
