ANNOUNCEMENT**International Committee for the Study of Clays**

A meeting of the full Committee is to be held in Amsterdam during the forthcoming International Congress of Soil Science (24th July to 1st August, 1950), when plans for its future activities will be discussed. The Committee wishes to be of help to all those concerned with the scientific study of clays, and any reader of this note who would like to suggest ways in which it could do so is invited to write, as early as possible, to one of the British representatives, so that these may be presented to the meeting.

The British representatives are:—

Dr. D. M. C. MacEwan (Rothamsted Experimental Station, Harpenden, Herts) and Dr. G. W. Brindley (University of Leeds).
