

CORRIGENDUM

Syrian refugees in seasonal agricultural work: a case of adverse incorporation in Turkey

Sinem Kavak

Doi: 10.1017/npt.2016.7. Published online on August 3rd 2016.

In *New Perspectives on Turkey's* issue no. 54, in the article entitled "Syrian refugees in seasonal agricultural work: a case of adverse incorporation in Turkey" by Sinem Kavak, the author wishes to have the following corrigendum published.

Additional footnote:

On pages 40 to 44, where the overall conditions of the seasonal agricultural workers are discussed, the data presented was drawn from a research project with a broader scope on seasonal migrant work in agriculture. The results were published in a co-authored report by Pınar Uyan Semerci, Emre Erdoğan, and Sinem Kavak entitled *Mevsimlik Gezici Tarım İşçiliği Raporu (Hayata Destek İnsani Yardım Derneği, 2014)*. Figures 1 to 7 are consecutively taken from the pages 23, 26, 57, 91, 45, 66 and 65 of the mentioned research report.

I apologize from the co-authors and readers for not providing this footnote in the previous issue of NPT.
