OXOID

Items from the range of

LABORATORY PREPARATIONS

- OXOID** Bacteriological Peptone. A preparation of the highest grade in which batch to batch variation is reduced to a minimum. Each batch is tested for its ability to give maximum bacterial growth, indol production, chemical composition and freedom from sugars.
- OXOID** Dehydrated Liver Infusion. An extremely potent source of bacterial growth factors. Recommended for the preparation of all media which specify liver infusion.
- OXOID** Bacteriological Yeast Extract. Contains all the solubles of the original yeast. An excellent source of the growth promoting factors for use in microbiological culture media.
- OXOID** Test Tube Caps. An improvement on cotton wool for closing Test Tubes. Can be used repeatedly and ensure sterility for long periods. Plain or in eight colours to fit $\frac{1}{2}$ ", $\frac{5}{8}$ ", $\frac{3}{4}$ " and 1" rimless test tubes.

OXOID
