

# Clay Minerals

VOLUME 10 · NUMBER 3 · JULY 1974

## CONTENTS

G. BROWN, P. BOURGUIGNON and J. THOREZ. A lithium-bearing aluminian regular mixed layer montmorillonite-chlorite from Huy, Belgium	135
CH. MOSSER. Illites en lattes, illites pseudohexagonales, processus de formation: experimentation	145
J. R. CARLSON and K. A. RODGERS. The Coalgate Bentonite. A ferriferous-beidellite deposit from Canterbury, New Zealand	153
A. H. WEIR and J. H. RAYNER. An interstratified illite-smectite from Denchworth series soil in weathered Oxford Clay	173
I. R. BASHAM. Mineralogical changes associated with deep weathering of gabbro in Aberdeenshire	189
E. A. FERREIRO and A. K. HELMY. Flocculation of Na-montmorillonite by electrolytes	203
Book Review	215
Abstracts	216
