

Submission Deadline—May 5, 2011

## Instrumented Indentation

Research on indentation has seen significant growth in recent years and *Journal of Materials Research* has been there to document the progress – boasting three highly cited focus issues on the topic over the past decade. With two years passed since the last focus issue on indentation, and with no sign of declining interest, the time seems ripe to visit the subject again. The swift evolution of instrumented indentation is the result of a rapid convergence of (1) improved fundamental understanding of indentation mechanisms, (2) advances in instrumentation, and (3) diverse applications of instrumented indentation in multiple research fields. This special focus issue, **scheduled for publication in January 2012**, will offer a snapshot of the state of the art in indentation and highlight current and emerging topics.

### Contributed papers are solicited in the following areas:

- ◆ Extracting mechanical properties of materials, including thin films, nanomaterials, and biological materials
- ◆ Modeling and simulation of instrumented indentation
- ◆ Nanomechanics and *in-situ* indentation
- ◆ Instrumented indentation under various environmental conditions
- ◆ Application to advanced and smart materials
- ◆ Analysis of deformation and fracture during indentation
- ◆ New developments and improvements in mechanical testing

### GUEST EDITORS

**Dongil Kwon**, Seoul National University, Korea

**M. Munawar Chaudhri**, University of Cambridge, United Kingdom

**Yang-Tse Cheng**, University of Kentucky, USA

**Oliver Kraft**, Karlsruhe Institute of Technology (KIT), Germany

### MANUSCRIPT SUBMISSION

To be considered for this issue, new and previously unpublished results significant to the development of this field should be presented. **The manuscripts must be submitted via the JMR electronic submission system by May 5, 2011.** Manuscripts submitted after this deadline will not be considered for the issue due to time constraints on the review process. Submission instructions may be found at [www.mrs.org/jmr-instructions](http://www.mrs.org/jmr-instructions). Please select “Focus Issue: *Instrumented Indentation*” as the manuscript type. All manuscripts will be reviewed in a normal but expedited fashion. **Papers submitted by the deadline and subsequently accepted will be published in the Focus Issue.** Other manuscripts that are acceptable but cannot be included in the issue will be scheduled for publication in a subsequent issue of *JMR*.

CALL FOR PAPERS

Submission Deadline—June 28, 2011

## Advances in Mechanics of One-Dimensional Micro/Nanomaterials

Fabrication of one-dimensional materials—nanotubes, nanowires, and nanopillars—is an area of significant interest, as these materials have promising applications in electronics, composites, optics, and MEMS. In many application venues, including flexible systems, the mechanical properties of 1-D materials can determine both reliability and performance. Experimental and theoretical modeling of 1-D materials subjected to mechanical straining demonstrates unexpected behaviors, including crystal structure transformation, brittle-to-ductile transition, and remarkable ductility. Both experimentalists and modelers will come together in a **February 2012 focus issue of *Journal of Materials Research*** to discuss the latest on deformation, failure, and mechanics of 1-D materials across micro- and nanoscales.

### Contributed papers are solicited in the following areas:

- ◆ Mechanical properties of nanotubes, nanowires, and nanopillars
- ◆ Mechanical failures in nanotubes, nanowires, and nanopillars
- ◆ Deformation and strengthening mechanisms in nanotubes, nanopillars, and nanowires
- ◆ Theoretical modeling and simulation of fracture and deformation

### GUEST EDITORS

**Katerina E. Aifantis**, Aristotle University of Thessaloniki, Greece

**Reza Shahbazian-Yassar**, Michigan Technological University, USA

**Seung Min Han**, Korea Advanced Institute of Science and Technology, South Korea

### MANUSCRIPT SUBMISSION

To be considered for this issue, new and previously unpublished results significant to the development of this field should be presented. **Manuscripts must be submitted via the *JMR* electronic submission system by June 28, 2011.** Manuscripts submitted after this deadline will not be considered for the issue due to time constraints on the review process. Submission instructions may be found at [www.mrs.org/jmr-instructions](http://www.mrs.org/jmr-instructions). Please select "Focus Issue: *Advances in Mechanics of One-Dimensional Micro/Nanomaterials*" as the manuscript type. All manuscripts will be reviewed in a normal but expedited fashion. **Papers submitted by the deadline and subsequently accepted will be published in the Focus Issue.** Other manuscripts that are acceptable but cannot be included in the issue will be scheduled for publication in a subsequent issue of *JMR*.

CALL FOR PAPERS

# MATERIALS RESEARCH SOCIETY

## 2011 Board of Directors

### Officers

J.J. De Yoreo, *President*  
D.S. Ginley, *Immediate Past President*  
B.M. Clemens, *Vice President and President-Elect*  
S.J. Hearne, *Secretary*  
M.R. Fitzsimmons, *Treasurer*

### Directors

W. Adams  
A.C. Arias  
T. Benson Tolle  
F. Besenbacher  
E. Bodenschatz  
D.B. Dimos  
J.M. Gibson  
O. Kraft  
H. Matsumura  
C.A. Orme  
M.F. Rubner  
T. Someya  
S.E. Trolrier-McKinstry  
P. Wiltzius

## 2011 Publications Committee

P.C. McIntyre, *Chair*  
P.B. Messersmith, *Editors Subcommittee*  
TBD, *New Publication Products Subcommittee*  
J.C. Bravman, *Publications Quality Subcommittee*

## 2011 MRS Committee Chairs

M.S. Whittingham, *Academic Affairs*  
J.R. Weertman, *Awards*  
A.J. Hurd, *Government Affairs*  
J.W.P. Hsu, *International Relations*

S. Jasty, *Membership*  
P.C. McIntyre, *Publications*  
G. Zenner Petersen, *Public Outreach*  
M. Aziz, *Technical Program*

## MRS Headquarters

T.M. Osman, *Executive Director*  
J.A. Dillen, *Director of Finance and Infrastructure*  
P.A. Hastings, *Director of Meeting Activities*  
G.A. Oare, *Director of Publications and Marketing*  
S.D. Wolf, *Director of Membership Development*

## Journal of Materials Research Founding Sponsors

Allied-Signal Inc.  
Xerox Corporation

## About the Materials Research Society

The Materials Research Society (MRS) is a not-for-profit scientific association founded in 1973 to promote interdisciplinary goal-oriented basic research on materials of technological importance. Membership in the Society includes almost 16,000 scientists from industrial, government, and university research laboratories in the United States and abroad.

The Society's interdisciplinary approach to the exchange of technical information is qualitatively different from that provided by single-discipline professional societies because it promotes technical exchange across the various fields of science affecting materials development. MRS sponsors two major international annual meetings encompassing many topical symposia, as well as numerous single-topic scientific meetings each year. It recognizes professional and technical excellence, conducts tutorials, and fosters technical exchange in various local geographical regions through Section activities and Student Chapters on university campuses.

MRS publishes symposia proceedings, the *MRS Bulletin*, and other volumes on current scientific developments. The *Journal of Materials Research*, the archival journal spanning fundamental developments in materials science, is published twenty-four times a year by Cambridge University Press for the MRS.

MRS regular and student members may subscribe to *Journal of Materials Research*. See inside front cover for subscription rates for *Journal of Materials Research*.

MRS is an Affiliated Society of the American Institute of Physics and participates in the international arena of materials research through associations with professional organizations such as the International Union of Materials Research Societies.

For further information on the Society's activities, contact MRS Headquarters, 506 Keystone Drive, Warrendale, PA 15086-7573; telephone (724) 779-3003; fax (724) 779-8313.
