

Journal
OF THE
MARINE BIOLOGICAL ASSOCIATION
OF
THE UNITED KINGDOM.

VOLUME IV. (N.S.).
1895-97.

PLYMOUTH:
PUBLISHED BY THE ASSOCIATION.

Agents in London :—Messrs. DULAU & Co., 37, Soho Square, W.

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for the accuracy of statements published in this Journal, excepting when those statements are contained in an official report of the Council.

CONTENTS OF VOLUME IV.

(NEW SERIES.)

	PAGE
Title	i
Contents	iii
<hr/>	
List of Governors, Founders, and Members—	
August, 1896	308
Report of Council—	
1894-95	81
1895-96	302
Director's Report—	
August, 1895	76
January, 1896	219
August, 1896	300
February, 1897	415
<hr/>	
ALLEN, E. J.	
Faunistic Notes—	
January to June, 1895	48
Notes on Dredging and Trawling Work during the latter half of 1895	164
The Reproduction of the Lobster	60
Additional Observations on the Nerve-elements of the Embryonic Lobster	70
Report on the Sponge Fishery of Florida and the Artificial Culture of Sponges	188
Supplement	289
The Protection of Crabs and Lobsters	182
The Regulations of the Local Sea Fisheries Committees in England and Wales	386
BASSETT-SMITH, P. W.	
A List of the Parasitic Copepoda of Fish obtained at Plymouth	155
BETHE, A.	
A Carcinus with a Right-handed Walking-leg on the Left Side of the Abdomen	144
BIDDER, G.	
Note on Projects for the Improvement of Sponge Fisheries	195
BREBNER, G.	
Algological Notes	179
ditto	286
BROWNE, E. T.	
On the Changes in the Pelagic Fauna of Plymouth during September, 1893 and 1895	168

	PAGE
BUTLER, G. W.	
Report on the Spawning of the Common Sole in the Aquarium of the Marine Biological Association's Laboratory during April and May, 1895	3
CLEVE, P. T.	
Microscopic Marine Organisms in the Science of Hydrography . . .	381
CUNNINGHAM, J. T.	
North Sea Investigations	10
ditto ditto	97
Additional Evidence on the Influence of Light in producing Pigments on the Lower Side of Flat-Fishes	53
The Reproductive Maturity of the Common Eel	87
Recent Reports of Fishery Authorities—	
The Scottish, Newfoundland, and United States Reports	203
Physical and Biological Conditions in the North Sea	233
On the Peculiarities of Plaice from different Fishing Grounds	315
GARSTANG, W.	
On <i>Doris maculata</i> , a new species of Nudibrauchiata Mollusk found at Plymouth	167
Contributions to Marine Bionomics—	
I. The Habits and Respiratory Mechanism of <i>Corystes cassivelaunus</i>	223
II. The Functions of Antero-Lateral Denticulations of the Carapace in Sand-burrowing Crabs	396
III. The Systematic Features, Habits, and Respiratory Phenomena of <i>Portunus nasutus</i> (Latreille)	402
GÜNTHER, R. T.	
The Oyster Culture of the Ancient Romans, with Plate I.	360
HODGSON, T. V.	
Notes on the Pelagic Fauna at Plymouth, August–December, 1895	173
