
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 69, 2016, which includes print and electronic access, is £575 (USA, Canada and Mexico US \$1040) and includes delivery by air; single parts are available at £105 (USA, Canada and Mexico US \$188) plus postage. The electronic-only price available to institutional subscribers is £446 (USA, Canada and Mexico US \$813). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

THE JOURNAL OF NAVIGATION

VOLUME 69 NUMBER 2 MARCH 2016

CONTENTS

- An Adaptive Weighting based on Modified DOP for Collaborative Indoor Positioning** 225
Hao Jing, James Pinchin, Chris Hill and Terry Moore
- Design of Ship Course-Keeping Autopilot using a Sine Function-Based Nonlinear Feedback Technique** 246
Xian-ku Zhang and Guo-qing Zhang
- An Empirically-Calibrated Ship Domain as a Safety Criterion for Navigation in Confined Waters** 257
Yueying Wang and Hoong-Chor Chin
- Bayesian Inference of GNSS Failures** 277
Carl Milner, Christophe Macabiau and Paul Thevenon
- Underwater Doppler Navigation with Self-calibration** 295
Xianfei Pan and Yuanxin Wu
- Measurement Signal Quality Assessment on All Available and New Signals of Multi-GNSS (GPS, GLONASS, Galileo, BDS, and QZSS) with Real Data** 313
Yiming Quan, Lawrence Lau, Gethin W. Roberts and Xiaolin Meng
- Transverse Navigation under the Ellipsoidal Earth Model and its Performance in both Polar and Non-polar areas** 335
Yi-qing Yao, Xiao-su Xu, Yao Li, Yi-ting Liu, Jin Sun and Jin-wu Tong
- Study on Initial Gravity Map Matching Technique Based on Triangle Constraint Model** 353
Zhu Zhuangsheng, Guo Yiyang and Yang Zhenli
- Thermal Calibration Procedure and Thermal Characterisation of Low-cost Inertial Measurement Units** 373
Qingjiang Wang, You Li and Xiaoji Niu
- Precision in Determining Ship Position using the Method of Comparing an Omnidirectional Map to a Visual Shoreline Image** 391
Krzysztof Naus and Mariusz Waz
- Pulse Phase Estimation of X-ray Pulsar with the Aid of Vehicle Orbital Dynamics** 414
Yidi Wang and Wei Zheng
- Evaluation of Shipping Accident Casualties using Zero-inflated Negative Binomial Regression Technique** 433
Jinxian Weng, Ying En Ge and Hao Han
