CONTENTS OF VOLUME 74 (2017)

VOL. 74, No. 1, MARCH 2017

- Does *Asplenium falcatum* exist in the Philippines? A. E. SALGADO 1
- Typification of names in *Eriocaulon* in the *Flora of Thailand* and *Flora of Cambodia, Laos and Vietnam*. P. SOULADETH, A. PRAJAKSOOD, J. A. N. PARNELL & M. F. NEWMAN 5
- The woody vegetation of quartzite soils in a mountain landscape in the Atlantic Forest Domain (south-eastern Brazil): structure, diversity and implications for conservation. J. H. C. RIBEIRO, C. R. FONSECA & F. A. CARVALHO 15
- An illustrated generic key and updated list of the grasses (Poaceae) of Belize. S. P. SYLVESTER 33
- Six new species of *Tetrapterys* (Malpighiaceae). W. R. ANDERSON & C. ANDERSON 77
- Carex drukyulensis* (Cyperaceae), a 'new' species from the Himalayas (Bhutan). P. JIMÉNEZ-MEJÍAS & H. J. NOLTIE 95
- Book review*
- Diatoms of the United States 1. Taxonomy, Ultrastructure and Descriptions of New Species and Other Rarely Reported Taxa from Lake Sediments in the Western U.S.A.*, edited by J. P. Kociolek, B. Laslandes, D. Bennett, E. Thomas, M. Brady & C. Graeff 103

VOL. 74, No. 2, JULY 2017

- Editorial. N. BELL 109
- Two new Peruvian species of *Begonia* (Begoniaceae) and an amended description of *Begonia thyrsoides*. P. W. MOONLIGHT & M. C. TEBBITT 111
- Araucaria goroensis* (Araucariaceae), a new monkey puzzle from New Caledonia, and nomenclatural notes on *Araucaria muelleri*. R. R. MILL, M. RUHSAM, P. I. THOMAS, M. F. GARDNER & P. M. HOLLINGSWORTH 123
- A new species of *Etilingera* (Zingiberaceae) from Bougainville Island, Papua New Guinea. A. D. POULSEN & B. B. BAU 141
- Four new species of *Begonia* (Begoniaceae) from Thailand. T. PHUTTHAI & M. HUGHES 149

<i>Rhododendron stanleyi</i> S. James & Argent: a new <i>Rhododendron</i> species (Ericaceae, subgenus <i>Vireya</i>) from Papua New Guinea. S. A. JAMES & G. ARGENT	163
Two new species of <i>Paphiopedilum</i> (Orchidaceae: Cyripedioideae) section <i>Barbata</i> from Sumatra, Indonesia. D. METUSALA	169
Taxonomy of <i>Begonia albomaculata</i> and description of two new species endemic to Peru. P. W. MOONLIGHT, M. HUGHES & M. C. TEBBITT	179
Taxonomy of the <i>Begonia tiliifolia</i> group, including descriptions of two new species. M. C. TEBBITT, M. HUGHES, Á. J. PÉREZ & P. W. MOONLIGHT	199
Recircumscription and new synonyms of <i>Begonia acerifolia</i> (Begoniaceae) and amended descriptions of the poorly known <i>B. hydrophylloides</i> and <i>B. velata</i> . M. C. TEBBITT	217
Two new taxa of <i>Ornithoboea</i> (Gesneriaceae) from Thailand. D. J. MIDDLETON, C. PUGLISI & S. SUDDEE	229
<i>Curcuma prasina</i> (Zingiberaceae), a new species from Thailand. J. LEONG-ŠKORNIČKOVÁ, D. J. MIDDLETON, P. TRIBOUN & S. SUDDEE	245
<i>Book review</i>	
<i>Rosellinia</i> – a <i>World Monograph</i> , by L. E. Petrini	251
VOL. 74, NO. 3, NOVEMBER 2017	
<i>Roscoea megalantha</i> (Zingiberaceae), a new species from eastern Bhutan and India. T. YOSHIDA, R. YANGZOM & M. F. NEWMAN	255
A reassessment of the status of three taxa within the <i>Rhododendron formosum</i> complex (Ericaceae: subsect. <i>Maddenia</i>) from Northeast India. A. A. MAO, D. K. ROY & K. RUSHFORTH	265
A population of <i>Lychnophora ericoides</i> Mart. (arnica) (Asteraceae) is prone to extinction in a savanna of Central Brazil. S. RIBEIRO-SILVA, M. B. MEDEIROS, V. V. F. LIMA, A. B. GIROLDO, S. E. DE NORONHA & F. O. RESENDE	281
Do environmental factors affect the taxonomic reliability of leaf cuticular micromorphological characters? A case study in Podocarpaceae. J. A. R. CLUGSTON, C. E. JEFFREE, A. AHRENDTS & R. R. MILL	299
The stomatal complex of <i>Podocarpus</i> observed in cross-section using cryofracture: a preliminary study. M. WHITING, R. R. MILL & C. E. JEFFREE	345
<i>Book reviews</i>	
<i>Diatoms and the Continuing Relevance of Morphology to Studies on Taxonomy, Systematics and Biogeography. Celebrating the Work and Impact of Patricia A. Sims on the Occasion of her 80th Birthday</i> , edited by J. Witkowski, D. Williams & J. P. Kocielek	365

<i>Syllabus of Plant Families. A. Engler's Syllabus der Pflanzenfamilien, 13th edition. Part 2/1: Photoautotrophic Eukaryotic Algae. Glaucocystophyta, Cryptophyta, Dinophyta/Dinozoa, Haptophyta, Heterokontophyta/Ochrophyta, Chlorarachniophyta/Cercozoa, Euglenophyta Euglenozoa, Chlorophyta, Streptophyta p.p.</i> , edited by W. Frey	366
<i>Nepal: an Introduction to the Natural History, Ecology and Human Environment of the Himalayas. A Companion to the Flora of Nepal</i> , edited by G. Miehe, C. Pendry & R. Chaudhary	370
<i>Errata</i>	
A monographic revision of <i>Retrophyllum</i> (Podocarpaceae)	375
Reviewers for Volume 74	377
Index to Volume 74	379
Volume contents	

The background of the advertisement is a dark, monochromatic image of several jellyfish. The jellyfish are translucent with visible internal structures and are scattered across the frame. A large, faint circular graphic is overlaid on the image, partially enclosing the text.

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

Cambridge
Core

CAMBRIDGE
UNIVERSITY PRESS

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. The **language** of the journal is UK English. Authors whose mother tongue is not English should have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge to the corresponding author. Paper offprints may be purchased through the publisher. Colour plates are published online and in print free of charge.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used, other than in specimen citations, where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. Correspondence will be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: *The International Plant Names Index*, <http://www.ipni.org/index.html>; *Index Fungorum, Authors of Fungal Names*, <http://www.indexfungorum.org/authorsof fungalnames.htm>.

Herbarium abbreviations should follow: *Index Herbariorum. Part I: The Herbaria of the World*, <http://sweetgum.nybg.org/ih/>.

Journal abbreviations should follow: *BPH Online*, http://fmhibd.library.cmu.edu/fmi/iwp/cgi?-db=BPH_Online2014&-loadframes.

Book title abbreviations should follow: *Taxonomic Literature*, <http://www.sil.si.edu/digitalcollections/tl-2/index.cfm>, except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2014) or 'as stated by Smith (2014)'. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the reference list, references should be in alphabetical order and should appear in the following style:

KNOPF, P., SCHULZ, C., LITTLE, D. P., STÜTZEL, T. & STEVENSON, D. W. (2012). Relationships within Podocarpaceae based on DNA sequence, anatomical, morphological, and biogeographical data. *Cladistics* 28: 271–299.

NOLTIE, H. J. (2013). *The Botanical Collections of Colonel and Mrs Walker: Ceylon, 1830–1838*. Edinburgh: Royal Botanic Garden Edinburgh.

ZHANG, Y. X. & LI, D. Z. (2013). History of and recent advances in plant taxonomy. In: HONG, D. Y. & BLACKMORE, S. (eds) *Plants of China: A Companion to the Flora of China*, pp. 256–278. Beijing: Science Press.

Tables should be numbered in arabic numerals and carry a descriptive title.

Figures, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Each figure should be supplied as an individual file. The multiple elements of any composite figure should *not* be supplied as individual files. Figure legends should be provided separately at the end of the main text file. Line drawings should be scanned in black and white at 1000 dpi and photographs scanned at 300 dpi (but correspond with the editor if this should prove problematic), and should ideally be supplied as TIFF or EPS files for line drawings, and TIFF, EPS or PDF files for photographs. Some other file formats are permissible; please see the Cambridge Journals Artwork Guide (<https://www.cambridge.org/core/services/authors/journals/journals-artwork-guide>) for more information. Please use LZW compression for TIFF files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

FirstView articles in *Edinburgh Journal of Botany*: All articles are published online on FirstView ahead of allocation to an issue. All taxonomic articles will contain the date of original online publication on FirstView, which fulfils the stipulations of the International Code of Nomenclature for algae, fungi, and plants.

Open Access: Cambridge Open Option allows authors the option to make their articles freely available to everyone, immediately on publication. For further information see the online Instructions for Contributors at <http://journals.cambridge.org/ejb>.
