British Journal of Nutrition
Volume 108, 2012 ISSN: 0007-1145

**Publishing, Production, Marketing, and
Subscription Sales Office:**

Cambridge University Press
The Edinburgh Building
Shaftesbury Road
Cambridge CB2 8RU, UK

For Customers in North America:

Cambridge University Press
Journals Fulfillment Department
100 Brook Hill Drive
West Nyack
New York 10994-2133
USA

Publisher: Katy Christomanou

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2012 comprise Volume 107, the twelve issues starting July 2012 comprise Volume 108.

Annual subscription rates:

Volumes 107/108 (24 issues):
Internet/print package £1113/\$2169/€1782
Internet only: £877/\$1710/€1401
Print only: £1060/\$2067/€1723

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six

months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutritionociety.org> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

Preface

The nutritional value and health benefits of pulses in relation to obesity, diabetes, heart disease and cancer.
J. Curran S1–S2

Reviews on Specific Pulses

Review of the health benefits of peas (*Pisum sativum* L.).
W. J. Dahl, L. M. Foster & R. T. Tyler S3–S10

Nutritional quality and health benefits of chickpea (*Cicer arietinum* L.): a review.
A. K. Jukanti, P. M. Gaur, C. L. L. Gowda & R. N. Chibbar S11–S26

General Impact of Pulse Consumption

Pulse consumption in Canadian adults influences nutrient intakes.
A. N. Mudryj, N. Yu, T. J. Hartman, D. C. Mitchell, F. R. Lawrence & H. M. Aukema S27–S36

Dietary dry bean effects on hepatic expression of stress and toxicity-related genes in rats.
E. L. Daniell, E. P. Ryan, M. A. Brick & H. J. Thompson S37–S45

Impact of Pulses Obesity/Satiety, Glycemic Response, Metabolic Syndrome and CVD Risk Factors

Pulse grain consumption and obesity: effects on energy expenditure, substrate oxidation, body composition, fat deposition and satiety.
C. P. F. Marinangeli & P. J. H. Jones S46–S51

Phaseolus beans: impact on glycaemic response and chronic disease risk in human subjects.
A. M. Hutchins, D. M. Winham & S. V. Thompson S52–S65

Edible dry bean consumption (*Phaseolus vulgaris* L.) modulates cardiovascular risk factors and diet-induced obesity in rats and mice.
Z. Zhu, W. Jiang & H. J. Thompson S66–S73

The effect of yellow pea protein and fibre on short-term food intake, subjective appetite and glycaemic response in healthy young men.
C. E. Smith, R. C. Mollard, B. L. Luhovyy & G. H. Anderson S74–S80

Metabolism and performance during extended high-intensity intermittent exercise after consumption of low- and high-glycaemic index pre-exercise meals.
C. B. Bennett, P. D. Chilibeck, T. Barss, H. Vatanparast, A. Vandenberg & G. A. Zello S81–S90

Assessment of the mechanisms exerting glucose-lowering effects of dried peas in glucose-intolerant rats.
K. A. Whitlock, L. Kozicky, A. Jin, H. Yee, C. Ha, J. Morris, C. J. Field, R. C. Bell, J. A. Ozga & C. B. Chan S91–S102

A pulse-based diet is effective for reducing total and LDL-cholesterol in older adults.
S. Abeysekera, P. D. Chilibeck, H. Vatanparast & G. A. Zello S103–S110

Regular consumption of pulses for 8 weeks reduces metabolic syndrome risk factors in overweight and obese adults.
R. C. Mollard, B. L. Luhovyy, S. Panahi, M. Nunez, A. Hanley & G. H. Anderson S111–S122

Anti-carcinogenic Effects of Pulses

In vitro investigations of the potential health benefits of Australian-grown faba beans (*Vicia faba* L.): chemopreventative capacity and inhibitory effects on the angiotensin-converting enzyme, α -glucosidase and lipase.
S. D. Siah, I. Konczak, S. Agboola, J. A. Wood & C. L. Blanchard S123–S134

The anti-proliferative effect of T11B, a major Bowman-Birk isoinhibitor from pea (*Pisum sativum* L.), on HT29 colon cancer cells is mediated through protease inhibition.
A. Clemente, M. C. Marín-Manzano, E. Jiménez, M. C. Arques & C. Domoney S135–S144

Non-digestible fraction of beans (*Phaseolus vulgaris* L.) modulates signalling pathway genes at an early stage of colon cancer in Sprague-Dawley rats.
V.-C. Haydé, G.-G. Ramón, G.-O. Lorenzo, O. B. Dave, R.-C. Rosalía, W. Paul & L.-P. Guadalupe S145–S154

Metabolomic analysis of the effects of edible dry beans (*Phaseolus vulgaris* L.) on tissue lipid metabolism and carcinogenesis in rats.
M. M. Mensack, J. N. McGinley & H. J. Thompson S155–S165
