

Journal of Glaciology

VOL. 3

OCTOBER 1960

No. 28

CONTENTS

P. F. SCHOLANDER and D. C. NUTT: Bubble pressure in Greenland icebergs	page 671
E. R. LACHAPPELLE: Recent progress in North American avalanche forecasting and control	679
W. KICK: Early discoverers, XIII—The first glaciologists in Central Asia	687
D. L. DINELEY and R. S. WATERS: Notes on the recent advance and retreat of Sefströmbreen in Ekmanfjorden, Vestspitsbergen	693
J. HALLETT: Crystal growth and the formation of spikes in the surface of supercooled water	698
JEREMY SMITH: Glacier problems in South Georgia	707
JAMES M. HAVENS: An historical survey of the late-season snow-bed in Tuckerman Ravine, Mount Washington, U.S.A.	715
MOIRA DUNBAR: Thrust structures in young sea ice	727
RICHMOND W. LONGLEY: Snow depth and snow density at Resolute, Northwest Territories	733
N. E. ODELL: The mountains and glaciers of New Zealand	739
CLYDE M. ADAMS, Jr., DAVID N. FRENCH, and W. DAVID KINGERY: Solidification of sea ice	745
V. F. SUSLOV: On the advance of certain glaciers of the north-western Pamirs	763
JOHN B. WHITTOW: Some observations on the snowfall of Ruwenzori	765
MALCOLM MELLOR: Temperature gradients in the Antarctic Ice Sheet	773
J. S. STACEY: Instruments and methods—A prototype hotpoint for thermal boring on the Athabaska Glacier	783
R. FINSTERWALDER: German glaciological and geological expeditions to the Batura Mustagh and Rakaposhi Range	787
J. D. IVES: Permafrost in central Labrador-Ungava	789
Correspondence: Ice shelves. Recent moraines of a lobe of the Taylor Glacier, Victoria Land, Antarctica. Distant release of avalanches	792
Glaciological literature	794
SHORT NOTICES:	
Glaciological Research Sub-Committee	670
Obituary. Paul Walker	791
