GREEN, P. T. (1997)

Red crabs in rain forest on Christmas Island, Indian Ocean: activity patterns, density and biomass. Vol. 13 Part 1: 17–38. On page 29 the phrase: “but a significant correlation existed across sites ( $r=0.81$ ,  $n=44$ ,  $P<0.001$ ).” should read: “but a significant correlation existed across sites ( $r=-0.69$ ,  $n=44$ ,  $P<0.001$ ).”

On page 33 the phrase “but the same correlation accounted for 81% of total variation when all sites were analysed together.” should read: “but the same correlation accounted for 48% of total variation when all sites were analysed together.”

P. Green, CSIRO, PO Box 780, Atherton, Queensland 4883, Australia.
