

ANNOUNCEMENTS

**Tenth Annual National Model Organization of African Unity
Howard University, March 8-11, 1989**

The tenth annual national simulation of the Organization of African Unity will take place over four days in March 1989 at Howard University in Washington, DC.

The Model OAU brings together student delegations and faculty advisors representing the member states of the OAU. The object of the model is to faithfully simulate a meeting of the OAU. Student delegates representing African countries meet in the Economic, Social, Defense, Mediation, and Liberation Commissions to discuss and move toward the resolution of the important problems facing the organization and the continent. The culminating meeting of the Assembly of Heads of State and Government considers and passes the final resolutions of the Model. Through this simulation, student delegates from a wide variety of backgrounds gain new perspectives on their chosen country and on the history and development of the continent of Africa as well as developing their ability to debate, use parliamentary procedure, and function in the world of international diplomacy.

Upon registration, each delegation receives preparatory material including delegation, faculty advisor, and commission officer handbooks. Based on these and additional materials, the delegation, under the supervision of a faculty advisor, prepares to represent the characteristics and interests of the country at the OAU. Each delegation then has a visit at the Embassy of their country upon arrival in Washington.

The Model that will take place in March of 1989 is the tenth anniversary Model. There will be several special events to mark this milestone in the history of simulating the work of the OAU. Participation in the coming year's Model will therefore be of special interest.
