

QUATERNARY RESEARCH

Quaternary Research is an international journal devoted to the advancement of the interdisciplinary understanding of the Quaternary Period. We aim to publish articles of broad interest with relevance to more than one discipline, and that constitute a significant new contribution to Quaternary science. The journal's scope is global, building on its 50-year history in advancing the understanding of earth and human history through interdisciplinary study of the last 2.6 million years. Research areas include geoarcheology, geochemistry and geophysics, geochronology, geomorphology, glaciology, neotectonics, paleobotany and paleoecology, paleoclimatology, paleogeography, paleohydrology, paleontology, paleoceanography, paleopedology, Quaternary geology, volcanology and tephrochronology.

Submit manuscripts online at <http://editorialmanager.com/qr>. See instructions for submitting your manuscripts at <https://www.cambridge.org/core/journals/quaternary-research/information/guide-for-authors>.

Subscription Information: *Quaternary Research* publishes six volumes per year. The journal is published on behalf of Quaternary Research Center by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA. Annual subscription rates for Volumes 99–104 (2021): Institutional rate, print only: \$1,561.00 (£1107.00 + VAT). Institutional rate, online only: \$1,531.00 (£1087.00 + VAT). Institutional rate, print and online: \$1,624.00 (£1154.00 + VAT). For subscriptions, renewals, and address changes, please visit <https://www.cambridge.org/core/journals/quaternary-research/subscribe>. Email subscriptions_newyork@cambridge.org if you are in the Americas or journals@cambridge.org for the rest of the world.

CONTENTS

- 1–20 Geomorphological record and equilibrium line altitude of glaciers during the last glacial maximum in the Rodna Mountains (eastern Carpathians)**
Piotr Kłapyta, Marcel Mîndrescu and Jerzy Zasadni
- 21–31 Ancient Egyptian mummified shrews (Mammalia: Eulipotyphla: Soricidae) and mice (Rodentia: Muridae) from the Spanish Mission to Dra Abu el-Naga, and their implications for environmental change in the Nile valley during the past two millennia**
Neal Woodman and Salima Ikram
- 32–51 Historical and prehistorical water levels of Mormon Lake, Arizona as a measure of climate change on the southwest Colorado Plateau, USA**
Richard Hereford and Lee Amoroso
- 52–76 Collapse of Holocene mangrove ecosystems along the coastline of Oman**
Valeska Decker, Michaela Falkenroth, Susanne Lindauer, Jessica Landgraf, Zahra Al-Lawati, Huda Al-Rahbi, Sven Oliver Franz and Gösta Hoffmann
- 77–97 Modern and Holocene microbial mats and associated microbially induced sedimentary structures (MISS) on the southeastern coast of Tunisia (Mediterranean Sea)**
Rached Lakhdar, Mohamed Soussi and Rachida Talbi
- 98–121 Causes and implications of Mid- to Late Holocene relative sea-level change in the Gulf of Kachchh, western India**
Shubhra Sharma, Gaurav Chauhan, Anil Dutt Shukla, Romi Nambiar, Ravi Bhushan, Bhawanisingh G. Desai, Shilpa Pandey, Madhavi Dabhi, Subhash Bhandari, Suraj Bhosale, Abhishek Lakhote and Navin Juyal
- 122–134 Moisture evolution in North Xinjiang (northwest China) during the last 8000 years linked to the westerlies' winter half-year precipitation**
Xiaonan Zhang, Aifeng Zhou, Zhendong Huang, Chengbang An, Yongtao Zhao, Liying Yin and James M. Russell
- 135–153 Geophysical characterization of late-Quaternary glaciofluvial complex and glacial stratigraphy in the Satakunta sandstone area, Köyliö, southwest Finland**
Elina Marita Ahokangas, Georgiana Anca Marines, Joni Kalevi Mäkinen, Antti Heikki Pasanen, Alireza Malehmir, Swi Elina Heinonen and Matti Ensio Pajunen
- 154–169 A wetland oasis at Wadi Gharandal spanning 125–70 ka on the human migration trail in southern Jordan**
Bety S. Al-Sagharat, Mahmoud Abbas, Zhongping Lai, Songlin Gong, Mustafa M. Alkuisi, Abdalla M.B. Abu Hamad, Paul A. Carling and John D. Jansen
- 170–223 Geoarchaeological investigation of occupation deposits in Blombos Cave in South Africa indicate changes in site use and settlement dynamics in the southern Cape during MIS 5b-4**
Magnus M. Haaland, Christopher E. Miller, Ole F. Unhammer, Jerome P. Reynard, Karen L. van Niekerk, Bertrand Ligouis, Susan M. Mentzer and Christopher S. Henshilwood
- 224–239 Life histories and niche dynamics in late Quaternary proboscideans from midwestern North America**
Chris Widga, Greg Hodgins, Kayla Kolis, Stacey Lengyel, Jeff Saunders, J. Douglas Walker and Alan D. Wanamaker
- 240–259 Bone histology, palaeobiology, and early diagenetic history of extinct equids from Turkey**
Carmen Nacarino-Meneses, Anusuya Chinsamy, Serdar Mayda, Tanju Kaya and Ugur Cengiz Erismis
- 260–262 Collapse of Holocene mangrove ecosystems along the coastline of Oman – Corrigendum**
Valeska Decker, Michaela Falkenroth, Susanne Lindauer, Jessica Landgraf, Zahra Al-Lawati, Huda Al-Rahbi, Sven Oliver Franz and Gösta Hoffmann
