## Vladimir Nabokov

### The Russian Years

This first major critical biography of Vladimir Nabokov allows, at last, full access to the dramatic details of the life and art of one of the century's greatest writers.

Here is an introduction to Nabokov—the man, his works, and his world—that will provide the basis for all future study. Among other accomplishments, Boyd dates and describes, for the first time, the composition of all of Nabokov's works (published and unpublished), including his fiction, dramas, memoirs, and major verse.

This first volume of a two-volume study, **Vladimir Nabokov: The Russian Years** is not only essential to an understanding of one of the most important writers of our time, but is fascinating reading in itself.

“. . . [An] intimate, magisterial, prodigiously researched biography. . . . With great empathy and verve. . . Boyd has written a superb biography.”—*Publishers Weekly*

## Pier Paolo Pasolini

### Cinema as Heresy

“I hate naturalness,” wrote Pier Paolo Pasolini. “I reconstruct everything.” A major Italian filmmaker, Pasolini was also a poet, novelist, essayist, and iconoclastic political commentator. Naomi Greene reveals to English-speaking readers the diverse talents that made him one of the most controversial European intellectuals of the postwar era. Greene presents Pasolini's films in full detail and in a rich critical context.

Probing the radical intelligence of his linguistic-cinematic theories, and the significance of his embrace of transgression and scandal, Greene relates Pasolini's films not only to his life but to the broader historical developments of his time.
