## INTERNATIONAL AFRICAN INSTITUTE

210 High Holborn, London WC1V 7BW

### CURRENT AFRICANIST RESEARCH

No. 1, November 1971

No. 2, September 1972

No. 3, August 1973

These international bulletins are providing cumulatively, information concerning current research in the social sciences and humanities, in universities and research organisations throughout the world.

With the publication in August 1973 of *Current Africanist Research* No. 3, the volumes will have listed over 5000 projects in the fields of archaeology and prehistory, the arts, economics and development studies, education, history, labour studies, languages and literature, law studies, politics and administration, population studies, psychology and child development, religion and philosophy, social organisation and social change, and urban studies. Information provided under each entry covers briefly: topic, name of research worker, methods, dates of starting and expected completion, organisations under whose auspices the work is being carried out, and other sources of funds.

Each volume also contains an introductory section giving news of research developments in African universities and on the formation of new research institutes and centres. The volumes are comprehensively indexed.

*Current Africanist Research* (£4.00/\$10/50 fr., plus postage, for each volume) is intended to be used with the *Register of Organisations undertaking Africanist Research* (March 1971, price £3.00 plus postage). Both publications are indispensable for any university or departmental library specialising in African studies.

Booksellers should order directly from the International African Institute. Members of the Institute who wish to take advantage of the special membership discount rate should order directly from the Institute. Payment should be made on receipt of invoice. Non-members should order through their usual booksellers.

AFRICAN RESEARCH AND DOCUMENTATION

We must apologise for the late appearance of the first number of African Research and Documentation, due largely to delays in the printing. Our printers, who do I think very good work for us at a reasonable price, are as conscious of the problem as we are, and are at present installing new machinery. This should resolve our difficulties in due course, but for the present we must ask you to be patient. The only alternative would mean increased cost of production and higher subscriptions.

MARION JOHNSON  
Hon. Editor.
