Books and Journals from  
Cambridge University Press

Cambridge's economics list is renowned for the breadth and quality of its publishing.

Our book list is home to the work of some of the most important economists in the history of the discipline, most notably John Maynard Keynes, as well as the work of almost 30 Sveriges Riksbank Nobel Prize laureates, including Kenneth Arrow, Herbert Simon, Robert Solow and Joseph Stiglitz.

This is complemented by a cluster of key journals such as *Econometric Theory*, *Journal of Economic History* and *Journal of Financial and Quantitative Analysis*.

35TH ANNIVERSARY EDITION

THE  
ECONOMIST'S  
VIEW  
OF  
THE WORLD  
*And the Quest  
for Well-Being*

9781108845946 | Hardback | October 2021 | £20 / \$27.95

“In this remarkable book, Steven Rhoads explains how economists perceive the world. In so doing, he reveals both the truths and limitations of the discipline. Non-economists should read the book, in order to understand what economists know. But economists should also read it, in order to understand what they do not.”  
Martin Wolf, Chief Economics Commentator, *Financial Times* (London)

“I loved the 1985 edition, which was my first introduction to the distinctive way economists see the world. The new edition retains the virtues of the early one with updated content.”  
Daniel Kahneman, Higgins Professor of Psychology Emeritus at Princeton University, winner of the Nobel Prize in Economic Sciences and author of *Thinking, Fast and Slow*.

“A superb tour of the economist’s mind, thoughtful and thought-provoking from beginning to end.”  
N. Gregory Mankiw, Robert M. Beren Professor of Economics, Harvard University, and author of *Principles of Economics*
