**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK (for U.K. and elsewhere).

**2016 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is

published bimonthly in February, April, June, August, October, and December by Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006; Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Annual institutional subscription rates for Volume 32 (2016): Institutions online only US \$647.00, and online only UK and elsewhere £371.00. ## CONTENTS

### Assessments

- 327** Environmental scan on pharmaceuticals requiring companion diagnostics  
*Tara Cowling and Michel Boucher*
- 337** Cost-utility analysis of primary prophylaxis, compared with on-demand treatment, for patients with severe hemophilia Type A in Colombia  
*Héctor Eduardo Castro Jaramillo, Mabel Moreno Viscaya and Aurelio E. Mejia*
- 348** Budget impact analysis of belimumab in treating systemic lupus erythematosus  
*Francesca Pierotti, Iaria Palla, Lara Pippo, Valentina Lorenzoni and Giuseppe Turchetti*
- 355** Oncologists' barriers and facilitators for oncotype DX use: Qualitative study  
*Megan C. Roberts, Amy Bryson, Morris Weinberger, Stacie B. Dusetzina, Michaela A. Dinan, Katherine Reeder-Hayes and Stephanie B. Wheeler*

### Method

- 362** Quality assessment of ethics analyses for health technology assessment  
*Anna Mae Scott, Kenneth Bond, Iñaki Gutiérrez-Ibarluzea, Björn Hofmann and Lars Sandman*
