

GENERAL NOTICES

Candidates for Election as Ordinary Members should obtain a nomination form from the Secretary, *Mineralogical Society*, 41 *Queen's Gate, London S.W. 7*. Candidates must be proposed by two members of the Society, one, at least, of whom shall have personal knowledge of the candidate. There is an entrance fee of one pound (£1) and the annual subscription is two pounds (£2); the latter can be compounded for by a single payment of forty-five pounds (£45). New Members, on the payment of their first subscription, receive all the numbers of the Magazine for the year for which the subscription is paid.

There are at least four meetings of the Society each year, on Thursdays, in January, March, June, and November. They are held (by kind permission) in the Apartments of the Geological Society, Burlington House, Piccadilly, London W. 1. Titles of papers to be read at these meetings, with a view to subsequent publication in the Magazine, and of exhibits, should be sent with a short abstract to the Secretary at least *three* weeks before the meeting. Authors alone are responsible for the views set forth in their respective papers. They are allowed, free of charge, fifty separate copies of their papers published in the Magazine, except in the case of Short Communications of less than 650 words. Authors are advised to consult the Notes for the Guidance of Authors (obtainable free of charge from the Society's office) before submitting papers.

MINERALOGICAL MAGAZINE

CONTENTS OF No. 236

(March 1957)

K. NORRISH, LILLIAN E. R. ROGERS, and R. E. SHAPER: Kingite, a new hydrated aluminium phosphate mineral from Robertstown, South Australia	351
G. BOOM: The normal-pattern finder: an aid to stereographic projection	358
J. A. GARD and H. F. W. TAYLOR: A further investigation of tobermorite from Loch Eynort, Scotland	361
F. L. STILLWELL and JOHN McANDREW: Pyrosmalite in the Broken Hill lode, New South Wales	371
FRANK SMITHSON and GEORGE BROWN: Dickite from sandstones in northern England and North Wales (Plate XIII)	381
J. J. FRANKEL: Abraded pyrite crystals from the Witwatersrand gold mines	392
L. J. LAWRENCE: An unusual cassiterite paragenesis and its genetic implications	402
A. A. MOSS: The nature of carphosiderite and allied basic sulphates of iron	407
H. L. NIXON and A. H. WEIR: The morphology of the Unter-Rupsroth montmorillonite (Plates XIV and XV)	413
IVAR OFTEDAL: Heating experiments on amazonite	417
G. F. CLARINGBULL, M. H. HEY, and C. J. PAYNE: Painite, a new mineral from Mogok, Burma	420
H. G. OWEN: A technique for the preparation of thin sections for thermal treatment, together with their remounting	426
H. G. OWEN: A section-holding chuck for use on high-speed surface-grinding machines	427
ARTHUR W. G. KINGSBURY: Rockbridgeite from Cornwall and Devon	429
