Publisher: Katy Christomanou

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Katy Christomanou at the Cambridge address for further details. E-mail: kchristomanou@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2009 comprise Volume 101, the twelve issues starting July 2009 comprise Volume 102.

Annual subscription rates:

Volumes 101/102 (24 issues):
Internet/print package £917/\$1788/€1469
Internet only: £803/\$1566/€1283
Print only: £874/\$1704/€1420

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies

supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition-society.org> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

19th International Congress of Nutrition
 Nutrition Security for All
 4-9 October 2009 - Bangkok, Thailand
 Bangkok International Trade and Exhibition Centre

HOSTED BY:

The Olympics of Nutrition

CALL FOR REGISTRATION

Deadline for Early-bird registration
4th July 2009

REGISTER NOW AND SAVE **\$200**

Register now for the ICN 2009 Conference and Exhibition, where food and nutrition specialists from all corners of the world meet. Online registration opens on 1 March 2009

Plenary Sessions

Global Efforts towards Achieving the MDGs and Nutrition Well-being
Dr. Ala Alwan, World Health Organization, Switzerland

Agriculture, Food Supply Systems and Trade for Nutrition Security
Speaker to be confirmed

Molecular Genetics, Environment, and Diet-Related Diseases
Prof. Gordon H. Williams, Harvard Medical School, USA

Global Partnerships for Combating Obesity and Chronic Diseases
Prof. Srinath Reddy, Public Health Foundation of India, and Prof. Phillip James, International Obesity Task Force, Public Health Policy Group, UK

Nutrition, Lifestyle and Cancer
Prof. John Milner, National Cancer Institute, USA

Nutrition as a Sound Investment for Human Capital
Prof. Juan Rivera, Instituto Nacional de Salud Publica, Mexico, and Prof. Susan Horton, Wilfrid Laurier University, Canada

Who Should Attend?

- Nutritionists
- Dieticians
- Public health and disease prevention specialists
- Diabetologists
- Pediatricians
- Endocrinologists
- Infectious disease specialists
- Cardiovascular disease specialists
- HIV specialists
- Obesity specialists
- Maternal healthcare specialists
- Policy makers
- Research and development companies
- Non Governmental Organizations
- Educational Institutions
- Food companies
- Pharmaceutical companies
- Laboratory equipment companies
- Suppliers and importers of nutrition medical devices
- Medical products and system manufacturers

Keynote Speaker

Dr. Tadataka Yamada,
 President, Global Health
 Program, Bill & Melinda Gates
 Foundation, USA

Addressing Nutrition and Health Challenges for the 21st Century

Exhibition Features:

- Leading food and nutrition companies, research and development companies and suppliers of nutrition medical devices
- Free exhibition entry for Congress delegates
- Show dates 5-9 October 2009

LAST EXHIBITION SPACE NOW BEING SOLD

Official Media Partner:

(Contents continued from back cover)

Nutritional Supplementation

- Effects of dietary supplementation with the green tea polyphenol epigallocatechin-3-gallate on insulin resistance and associated metabolic risk factors: randomized controlled trial.
A. L. Brown, J. Lane, J. Coverly, J. Stocks, S. Jackson, A. Stephen, L. Bluck, A. Coward & H. Hendrickx 886–894

Nutritional Energetics

- Use of theoretical efficiencies of protein and fat synthesis to calculate energy requirements for growth in pigs.
C. Z. Roux 895–901

Behaviour

- Prenatally undernourished rats show increased preference for wheel running *v.* lever pressing for food in a choice task.
J. L. Miles, J. Landon, M. Davison, C. U. Krägeloh, N. M. Thompson, C. M. Triggs & B. H. Breier 902–908
- Associations of individual and family eating patterns during childhood and early adolescence: a multicentre European study of associated eating disorder factors.
I. Krug, J. Treasure, M. Anderlueh, L. Bellodi, E. Cellini, D. Collier, M. d. Bernardo, R. Granero, A. Karwautz, B. Nacmias, E. Penelo, V. Ricca, S. Sorbi, K. Tchanturia, G. Wagner & F. Fernández-Aranda 909–918

Appetite

- Effect of intragastric acid stability of fat emulsions on gastric emptying, plasma lipid profile and postprandial satiety.
L. Marciiani, R. Faulks, M. S. J. Wickham, D. Bush, B. Pick, J. Wright, E. F. Cox, A. Fillery-Travis, P. A. Gowland & R. C. Spiller 919–928

Corrigendum

929

Directions to Contributors - Concise Version**(Revised August 2007)**

The *British Journal of Nutrition* is an international peer-reviewed journal that publishes original papers, review articles, technical notes and short communications in English in all branches of nutritional science. **Prospective authors should note that they (or their institutions) now retain the copyright of their material published in the *British Journal of Nutrition*.** As a contributor you are asked to follow the guidelines set out below. For detailed information on the presentation of the technical content of your paper please see the full version of the **Directions to Contributors**, which can be downloaded from the Nutrition Society website (<http://www.nutrition-society.org>). Prospective authors may also contact the Publications Office directly on + 44 (0)20 7605 6555 (telephone), +44 20 7602 1756 (fax), or edoffice@nutsoc.org.uk (email).

Papers should be accompanied by a statement to the effect that the conditions laid down in the full Directions to Contributors are accepted. The statement should affirm that the submission represents original work that has not been published previously and which is not currently being considered by another journal. It should also confirm that each author has seen and approved the contents of the submitted paper. At the time of acceptance the authors should provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer). The Licence to Publish is available on the Nutrition Society website (<http://www.nutrition-society.org>). All relevant financial interests should be declared.

Text. Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only, the need for any further changes should at most reflect any minor issues.**

Title Page. The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply three or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head.

Abstract. Each paper should commence with an accurate and informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text or figures, and should not exceed 250 words.

Tables. Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page for each Table, at the end of the article and carry headings describing their content.

Illustrations. The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they clearly contribute to the text. All figures should be numbered and legends should be provided.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

References. References should be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

- Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhuabarb (*Rheum rhaponticum*) stalk fibre stimulates cholesterol 7 α -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
- Jenkins DJ, Kendall CW, Marchie A, *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
- Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
- Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted^(1,2-4). If a reference is cited more than once the same number should be used each time.

Referees. Authors are asked to submit the names of up to four scientists who would be well-qualified to review the paper; however, no more than one such reviewer will be used. The email addresses and institutions of the named reviewers should be given.

Proofs. PDF page proofs will be emailed to authors for checking, and should be returned within 3 days (by fax or Express mail) to the BJN Production Editor, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, UK; fax +44 1223 325802, email bjnproduction@cambridge.org

Typescripts. The *British Journal of Nutrition* operates an on-line submission and reviewing system (eJournalPress). Authors should submit to the following address: <http://bjn.msubmit.net/> If any difficulties are encountered please contact the Publications Office (details above) immediately.

Contents

Editorial

- Who should be an author?
P. C. Calder 775–775

Review Article

- Lactotripeptides and antihypertensive effects: a critical review.
E. Boelsma & J. Kloek 776–786

Systematic Review

- A systematic review on the timing of artificial nutrition in acute pancreatitis.
M. S. Petrov, R. D. Pylypchuk & A. F. Uchugina 787–793

Short Communication

- A new approach to the assessment of marginal vitamin A deficiency in children in suburban Guwahati, India: hydrolysis of retinoyl glucuronide to retinoic acid.
P. C. Sarma, B. C. Goswami, K. Gogoi, H. Bhattacharjee & A. B. Barua 794–797
- Increased dietary protein consumed at breakfast leads to an initial and sustained feeling of fullness during energy restriction compared to other meal times.
H. J. Leidy, M. J. Bossingham, R. D. Mattes & W. W. Campbell 798–803
- In vivo* test of the vertical phase separation hypothesis: the display of major histocompatibility complex (MHC) class I molecules on membranes of B cells from mice fed high-fat diets.
S. R. Shaikh, S. Boyle, J. Hua, Z. Li & M. Edidin 804–809
- Daily supplementation of tocotrienol-rich fraction or α -tocopherol did not induce immunomodulatory changes in healthy human volunteers.
A. K. Radhakrishnan, A.-L. Lee, P.-F. Wong, J. Kaur, H. Aung & K. Nesaretnam 810–815

Molecular Nutrition

- Homogenization, lyophilization or acid-extraction of meat products improves iron uptake from cereal–meat product combinations in an *in vitro* digestion/Caco-2 cell model.
H. Pachón, R. J. Stoltzfus & R. P. Glahn 816–821

Metabolism and Metabolic Studies

- Endogenous flow of amino acids in the avian ileum as influenced by increasing dietary peptide concentrations.
V. Ravindran, P. C. H. Morel, S. M. Rutherford & D. V. Thomas 822–828
- Effects of *n*-3 fatty acids and acute exercise on endothelium-dependent vasorelaxation in healthy rat aorta.
S. Thioub, J. Mansourati, C. Corporeau, E. Heylen, J. Delarue & F. Guerrero 829–835
- Phytic acid increases mucin and endogenous amino acid losses from the gastrointestinal tract of chickens.
E. M. Onyango, E. K. Asem & O. Adeola 836–842
- Overexpression of ornithine aminotransferase: consequences on amino acid homeostasis.
G. Ventura, J.-P. De Bandt, F. Segaud, C. Perret, D. Robic, O. Levillain, S. L. Plenier, C. Godard, L. Cynober & C. Moinard 843–851

Nutritional Immunology

- Effects of increasing docosahexaenoic acid intake in human healthy volunteers on lymphocyte activation and monocyte apoptosis.
S. Mebarek, N. Ermak, A. Benzaria, S. Vicca, M. Dubois, G. Némoz, M. Laville, B. Lacour, E. Véricel, M. Lagarde & A.-F. Prigent 852–858

Microbiology

- Blueberry husks and multi-strain probiotics affect colonic fermentation in rats.
C. Bränning, Å. Håkansson, S. Ahrné, B. Jeppsson, G. Molin & M. Nyman 859–870

Human and Clinical Nutrition

- Cross-validation of generalised body composition equations with diverse young men and women: the Training Intervention and Genetics of Exercise Response (TIGER) Study.
A. S. Jackson, K. J. Ellis, B. K. McFarlin, M. H. Sailors & M. S. Bray 871–878
- Nutritional intervention in patients with periodontal disease: clinical, immunological and microbiological variables during 12 months.
A. Jenzsch, S. Eick, F. Rassoul, R. Purschwitz & H. Jentsch 879–885

(Contents continued facing inside back cover)
