The titles of books and periodicals should be written in italics (in typing, *underlined*), the titles of articles in periodicals in Roman letters between quotation marks.

**REFERENCES :** The volume and date of a periodical and the publication date of a book should both be cited in the first reference to it. The number of a volume in a series should be written in capital Roman numerals.

**TRANSCRIPTION :** *Modern Turkish* place and personal names should always be written in the current Turkish orthography. In typing, the dotless *i* should be represented by *I* in the body of a word.

**GREEK NAMES** which have become established in English usage should be given in the familiar English form (e.g., Ptolemy).
