TABLE OF CONTENTS

Index sets and degrees of unsolvability. By MICHAEL STOB	241
On the category of models of a complete theory. By DANIEL LASCAR	249
On decomposition of Gödelnumberings into Friedbergnumberings. By BRITTA SCHINZEL	267
The Baire category theorem and cardinals of countable cofinality. By ARNOLD W. MILLER	275
Intensional logic in extensional language. By CHARLES PARSONS	289
Double jumps of minimal degrees over cardinals. By C. T. CHONG	329
Abstract logic and set theory. II. Large cardinals. By JOUKO VÄÄNÄNEN	335
A classification of jump operators. By JOHN R. STEEL	347
Constructive assertions in an extension of classical mathematics. By VLADIMIR LIFSCHITZ	359
An effective selection theorem. By ASHOK MAITRA	388
On definition trees of ordinal recursive functionals: Reduction of the recursion orders by means of type level raising. By JAN TERLOUW	395
On the complexity of models of arithmetic. By KENNETH MCALOON	403
Flipping properties in arithmetic. By L. A. S. KIRBY	416
On the role of Ramsey quantifiers in first order arithmetic. By JAMES H. SCHMERL and STEPHEN G. SIMPSON	423
Reviews	436
Notices	479

THE JOURNAL OF SYMBOLIC LOGIC is published quarterly, in the months of March, June, September, and December. The JOURNAL is the official organ of the Association for Symbolic Logic, Inc., an international organization for furthering research in symbolic logic and exchange of ideas among mathematicians, philosophers, and others interested in this field.

Individual membership in the Association is open to anyone interested in its work. Annual dues for students are \$9.00. Dues for other individual members are \$18.00 per year. Dues include subscription to the current volume of the JOURNAL. For their personal use, members may purchase back volumes at 25% discount.

Institutional membership in the Association is available to any academic institution or department. Annual dues are \$120.00. Membership privileges include choices of current subscriptions, of back volumes, and of student memberships; a detailed description is available from the Association. Information on corporate membership is also available from the Association.

For nonmembers, the current annual subscription price is \$48.00 for a volume in paper form, and \$64.00 for a combination of paper and microform (microfiche or microfilm). Microfiche of each issue is sent by first class or air mail before the camera copy is sent to the printer. Microfilm copy of a volume is sent at the end of the year. It is available in 16mm positive or negative form, and may be ordered on spools or in Kodak or 3M cartridges.
