# **JOINT TORTS and CONTRIBUTORY NEGLIGENCE**

BY

**GLANVILLE L. WILLIAMS, LL.D.**

*Quain Professor of Jurisprudence in the University of London*

This book studies the legal problems that arise where harm is caused by the fault of two or more persons. It falls into two parts: cases where two or more persons are responsible in tort for the same damage (joint tortfeasors and several concurrent tortfeasors), and cases where the victim of a tort is part author of his own damage (contributory negligence).

The laws of Scotland and of other common-law members of the Commonwealth (especially Canada) are dealt with, and there is a full treatment of the law and practice under the Maritime Conventions Act, 1911.

# **A Manual of INTERNATIONAL LAW**

By G. SCHWARZENBERGER

'The non-professional reader may well find in this comparatively short book a more practical guide to the subject than that to be culled with pain from many more elaborate volumes and from all the cast gospels abroad to-day for the worlds redemption. The author has placed lecturers in the subject under the greatest obligations; and whatever their views in a very "viewy" subject, they have available a *Manual* which ought to form an admirable basis for discussions of specific and defined issues. The facilities for reference are excellent.'
