

ABSTRACTS OF COMMUNICATIONS

Sixtieth Scientific Meeting

| | PAGE |
|--|------|
| Nutrition in relation to the shape and size of the human pelvis. By R. M. BERNARD | i |
| Experimental cobalt deficiency in the sheep. By A. T. PHILLIPSON and R. L. MITCHELL | iii |
| The influence of the ovaries on bone repair after skeletal depletion during lactation. By GABRIELLE M. ELLINGER and J. DUCKWORTH | iv |
| The nutritional significance of microbial digestion of starch in the pig caecum. By H. NASR | v |
| The influence of ascorbic acid on the vascularization of the cornea subsequent to injury. By F. W. CAMPBELL and I. D. FERGUSON | vi |
| The biological value of dietary nitrogen in the calf. By K. L. BLAXTER and W. A. WOOD | vi |
| The design and statistical analysis of growth experiments with chicks. By A. W. BOYNE, K. J. CARPENTER and J. DUCKWORTH | vii |
| Phosphatase and ester-phosphorus in human milk. By R. CHANDA, E. C. OWEN and B. CRAMOND | viii |
| Microscopic studies of the alimentary micro-organisms of the sheep. By MARJORIE MASSON | viii |
| Some observations on the utilization of protein-rich supplements by sheep. By MARGARET I. CHALMERS and R. L. M. SYNGE | ix |

Sixty-first Scientific Meeting

| | |
|---|-------|
| Variables influencing the response of chicks to animal protein factors in the ration. By K. J. CARPENTER and J. DUCKWORTH | xi |
| Children's growth. By E. R. BRANSBY and W. H. HAMMOND | xi |
| Changes in the pancreatic islets in guinea-pigs on a vitamin P-deficient and a stiffness-producing diet. By G. H. BOURNE | xii |
| Lesions of the muco-cutaneous junctions in pyridoxin deficiency in albino rats. By V. RAMALINGASWAMI and H. M. SINCLAIR | xiii |
| Quantitative studies and dose-response curves in nicotinamide deficiency in rats. By L. J. HARRIS and E. KODICEK | xiii |
| Some experimental observations on the dietary selection of the rat. By D. E. TRIBE, J. G. GORDON and J. W. WHITFIELD | xiv |
| Haemoglobin in women before and after labour. By H. E. MAGEE and E. H. M. MILLIGAN | xv |
| Histological changes in rats on nicotinic acid-deficient diets. By G. H. BOURNE and L. J. HARRIS | xvi |
| Gum pallor as a sign of anaemia. By W. T. C. BERRY and P. J. COWIN | xvii |
| Dental depigmentation in albino and piebald rats. By T. MOORE | xviii |
| The protection of the newborn calf against fatal scours by small quantities of colostrum proteins. By R. ASCHAFFENBURG, S. BARTLETT, S. K. KON, J. H. B. ROY, D. M. WALKER, C. BRIGGS and R. LOVELL | xviii |

CONTENTS OF VOLUME 4, Nos. 2 & 3, 1950

(All rights reserved)

| | PAGE |
|--|------|
| The losses of ascorbic acid during the large-scale cooking of green vegetables by different methods. By MARGARET A. ALLEN and S. G. BURGESS | 95 |
| Mineral metabolism on rice diets. By H. CULLUMBINE, V. BASNAYAKE, J. LEMOTTEE and T. W. WICKRAMANAYAKE | 101 |
| The effect of sulphaniilamide on the metabolism of calcium, carbonate, phosphorus, chloride and nitrogen in the laying hen. By C. TYLER | 112 |
| Nitrogen-balance studies on rice diets. By H. CULLUMBINE | 129 |
| A comparison of acid and enzymic extraction of nicotinic acid from foodstuffs. By KAMALA SOHONIE and U. C. MISRA | 134 |
| Stimulation of growth in pigs by iodinated casein and stilboestrol. By R. BRAUDE | 138 |
| The protein quality of oats. By J. G. HEATHCOTE | 145 |
| Changes occurring in the proteins as a result of processing groundnuts under selected industrial conditions. 1. Physical and chemical changes. By J. W. LORD and J. A. WAKELAM | 154 |
| The effect of quantity and quality of food proteins on the regeneration of liver protein in protein-depleted rats. By K. GUGGENHEIM and EDITH BUECHLER-CZACZKES | 161 |
| The biological value of the proteins of lucerne and trefoil and of an earthnut meal, as determined by the Thomas-Mitchell method. By R. H. ARMSTRONG and B. THOMAS | 166 |
| Breeding, growth and resistance to infection of mice fed on six natural diets. By J. W. HOWIE and G. PORTER | 175 |
| Studies in the vitamin C metabolism of the pig. By R. BRAUDE, S. K. KON and J. W. G. PORTER | 186 |
| A constant-temperature room for small-scale experiments with young chicks. By M. E. COATES, H. S. HALL and C. C. THIEL | 199 |
| The use of chicks for the biological assay of members of the vitamin B complex. 1. Tests with pure substances. By M. E. COATES, S. K. KON and E. E. SHEPHEARD | 203 |

PROCEEDINGS OF THE NUTRITION SOCIETY

CONFERENCE PROCEEDINGS

Fifty-eighth Scientific Meeting

THERAPEUTIC DIETETICS

| | |
|--|-----|
| Modern trends in therapeutic dietetics. By D. M. DUNLOP | 225 |
| Diet and trauma. By D. P. CUTHBERTSON | 232 |
| Diet and inborn errors of metabolism. By C. RIMINGTON | 242 |
| Vitamin B ₁₂ and other dietary factors in megaloblastic anaemias. By C. C. UNGLEY | 252 |
| The place of diet in the treatment of the sprue syndrome. By R. H. GIRDWOOD | 259 |

Fifty-ninth Scientific Meeting

THE IRISH NATIONAL NUTRITION SURVEY

| | |
|---|-----|
| Origin and organization of the Irish National Nutrition Survey. By J. M. O'CONNOR | 269 |
| Objective, scope and general plan of the Irish National Nutrition Survey. By J. D. HOURIHANE | 270 |
| Statistical plans and methods of the Irish National Nutrition Survey. By R. C. GEARY | 274 |
| The results of the Irish National Nutrition Survey. By W. J. E. JESSOP | 281 |
| Agricultural implications of the results of the Irish National Nutritional Survey. By E. J. SHEEHY | 284 |
| Haemoglobin and plasma-protein values in 2500 adults and 600 pregnant women in the Republic of Ireland. By T. E. BRADSHAW | 287 |
| Results of rickets surveys in Dublin. By W. J. E. JESSOP | 287 |
| Practical significance of the Irish National Nutrition Survey. By J. DEENY | 292 |
