ERRATA TO
OPTIMAL SCALING OF PAIRED COMPARISON AND RANK ORDER DATA: AN ALTERNATIVE TO GUTTMAN'S FORMULATION

SHIZUHIKO NISHISATO

THE ONTARIO INSTITUTE FOR STUDIES IN EDUCATION

Two formulas in Nishisato [1978] were erroneous. The correct versions of them are as follows:

	Errors are	*Should be*
Formula (9), p. 265	$SS_t = 2Nx'x$	$SS_t = N(n-1)x'x$
Formula (10), p. 266	$SS_b = \left[\dfrac{2}{n(n-1)^2}\right]x'E'Ex$	$SS_b = \left[\dfrac{1}{n(n-1)}\right]x'E'Ex$

The other formulas and the discussion are correct.
