## **The Church and Infallibility**

By **B. C. Butler**, Abbot of Downside

12/6 net

Following on the recent re-issue of Dr. Salmon's famous attack on the Infallibility of the Church, the Abbot of Downside has written this book which is not merely an "answer" but a profound study of Infallibility, its function in the Church, its development as a doctrine, and in particular, all the discussion surrounding the 1870 definition. He pays particular attention to the thought of Newman, so oddly misrepresented by Dr. Salmon. Recent controversy gives this scholarly study of the subject an added relevance for the present moment.
