Historical Dictionary of Poland, 966-1945

By **George J. Lerski**

With special editing and emendations by
Piotr Wrobel and Richard J. Kozicki
Foreword by **Aleksander Gieysztor**

"In many years of teaching Polish history, I have always been struck by the lack of information, and sometimes by the misinformation that can be found on Polish history in standard reference works. This is remedied at last in the *Historical Dictionary*. Its high standard will serve as a model for future reference works on Polish history."

Nations without States

**A Historical Dictionary of
Contemporary National
Movements**

By **James Minahan**

Foreword by **Leonard W. Doob**

"You and I are fortunate to have this book available to us. Concisely and clearly each entry here contains the essential facts about the 'nations' without states. Quickly, quietly this book can be consulted whenever we discover or realize that as alert individuals or as scholars we are not omniscient. We can or must consult a reliable source about a 'nation' when we read or hear that one of them or its members have proudly publicized its identity by staging a demonstration or celebrating an anniversary, by protesting a grievance or petitioning some organization such as a church or the United Nations, or by committing a noble or atrocious act. This "dictionary" is veritably encyclopedic in its scope."

Hermann Beck

**THE ORIGINS OF
THE AUTHORITARIAN
WELFARE STATE
IN PRUSSIA**

**Conservatives, Bureaucracy,
and the Social Question,
1815–70**

Prussia's social and political structure, institutions, and values were in many ways formative for German history after 1871. After unification Prussia accounted for roughly two-thirds of the Empire's size and population, but her weight within Germany was even greater since Prussia in large part molded the German identity and shaped Germany's image abroad.

The Origins of the Authoritarian Welfare State in Prussia examines this Prussian/German identity. It investigates the complex traditions of ideas, institutions, and social policy measures that lay at the root of the conservative Prussian welfare state. The examination of the ideas and policies of Prussian officials brings out a peculiar *welfare state mentality* of benevolence and patriarchal concern, pervaded by authoritarian streaks, that was unique in nineteenth-century Europe. In addition, the study analyzes the historiographical implications of the question of continuity and discontinuity in German history.

Of interest to scholars and students of German history, this volume will also attract students of bureaucracy, social legislation, and the state.

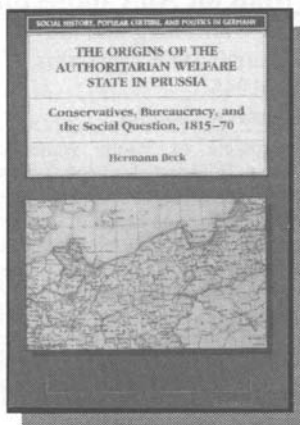

Professor Hermann Beck teaches German and European history at the University of Miami.

HOLOCAUST STUDIES

MARTIN HEIDEGGER AND THE HOLOCAUST

Edited by ALAN MILCHMAN
and ALAN ROSENBERG

Focuses on a neglected aspect of the Heidegger controversy: the question of Martin Heidegger's relationship—as a person and as a thinker—to the industrialization of death as symbolized by Auschwitz. Contributors seek to comprehend the meaning of Heidegger's postwar silence about the Holocaust, as well as the meaning of his several explicit references to the Extermination, in the light of his preoccupation with the nihilism that he believed to be the hallmark of our technological world. Essays reflect the editors' concern to avoid both censorship and partisanship in their selections—resulting in a wide diversity of viewpoints, and the full spectrum of views, that have arisen in the course of the ongoing Heidegger debate.

THE GERMAN PUBLIC AND THE PERSECUTION OF JEWS, 1933-1945

**“No One Participated,
No One Knew”**

Edited by JÖRG WOLLENBERG

Translated and Edited by
RADO PRIBIC

This volume contains contributions to a symposium sponsored by the City of Nuremberg to investigate the behavior of ordinary Germans toward the Jews during the Third Reich. It is divided into two parts: eyewitness reports by Jews, half-Jews and non-Jews of events in Nuremberg, particularly during “Reichskristallnacht” on November 9, 1938; and analyses of Third Reich policies, behavior, and events as they were directed at German Jews.
