NOTES FOR CONTRIBUTORS

PAPERS Papers for publication should be addressed to the Editor, Professor Michael Shepherd, Institute of Psychiatry, De Crespigny Park, Denmark Hill, London SE5 8AF. Contributors should send at least three copies of the text, tables, and figures. Copies other than the first may be xeroxed. The S.I. system should be adopted for text and figures. A short synopsis of about 50 words should be provided at the beginning of each article. Foreign quotations and phrases should be followed by a translation. If necessary, guidelines for statistical presentation may be found in: Altman, D. G., Gore, S. M., Gardner, M. J. & Pocock, S. J. (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere.

In addition to longer articles, the Editor is prepared to accept preliminary and brief communications of between 1500 and 2500 words.

Manuscripts must be typewritten on one side of the paper in double-spacing with wide margins. The following information must be given on a single separate sheet: (1) title and short title for running head (not more than 100 characters); (2) authors' names, and (3) department in which work was done. Footnotes on the same sheet should list: (i) the authors' present addresses if different from departments in which work was done; (ii) name and address of the author to whom correspondence should be addressed; (iii) receipt of grants. Authors who would like a reprint address to be printed should include this on their manuscript.

REFERENCES (1) In the text these should follow the Harvard system – that is, name followed by date: Brown (1970). If there are more than two authors the first author's name followed by *et al.* should be used, even the first time that the reference appears. (2) The list of references should be typed in alphabetical order on a separate sheet and should appear as follows: Brown, J., Williams, E. & Wright, H. (1970). Treatment of heroin addiction. *Psychological Medicine* **1**, 134–136. Journal titles should be given in full.

Books should be cited as follows: Brown, J. (1970). *Psychiatric Research*. Smith: Glasgow.

ILLUSTRATIONS Only essential figures and tables should be included. *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. Where possible, prints should be trimmed to column width (i.e. 70 mm). *Diagrams* These will usually be reduced to 70 mm wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

PROOFS AND OFFPRINTS Page proofs will be sent to the senior author. Corrections other than printer's errors may be charged to the author. Fifty offprints of each paper are supplied free; additional offprints are available according to a scale of charges if they are ordered when the proof is returned.

Mental Health Foundation

FELLOWSHIPS

Applications are invited for Mental Health Foundation Fellowships from suitably qualified persons wishing to pursue Full-time Research Work bearing on problems of mental health, mental illness or mental handicap, whether in clinical psychiatry or in one of its supporting sciences.

Both Junior and Senior Fellowships are offered in the salary ranges of Junior/Senior Lecturer, Junior/Senior Registrar, according to seniority and experience, plus superannuation. However, Senior Fellowships are only awarded under exceptional circumstances, e.g., as a temporary measure prior to the Fellow taking up a permanent career post. The appointments, which are also open to candidates from overseas, will be for up to three years in the first instance and in exceptional circumstances may be extended to five years. Interviews will be held in May in London and the Fellowships will be taken up between the following July 1st and March 31st. Overseas candidates, if shortlisted, must attend for interview at their own expense.

Closing date: March 1st.

Application forms and further information may be obtained from:

Announcing the new DSM III R

Diagnostic and Statistical Manual of Mental Disorders

Third Edition Revised

AMERICAN PSYCHIATRIC ASSOCIATION

The entire text of the highly successful DSM III has been revised to take account of the latest data available for the consideration of associated features, the course, complications, prevalence, differential diagnosis and other factors that influence the diagnosis of mental disorders. In particular the diagnostic criteria have been revised, there is a new classification and criteria for sleep disorders, and a greatly expanded section on substance abuse. The book has been redesigned to make it easier to use, with many useful features incorporated.
