EDITORIAL BOARD

Executive Editors

Professor W. D. COLLINS
University of Sheffield

Professor W. N. EVERITT
University of Dundee

Professor A. JEFFREY
University of Newcastle upon Tyne

Professor A. ERDÉLYI
University of Edinburgh

Professor D. S. JONES
University of Dundee

Dr J. B. MCLEOD
University of Oxford

Professor D. C. PACK
University of Strathclyde

Professor E. M. PATTERSON
University of Aberdeen

Professor R. A. RANKIN
University of Glasgow

Dr F. SMITHIES
University of Cambridge

Professor I. N. SNEDDON
University of Glasgow

Dr A. E. RITCHIE
General Secretary

W. H. RUTHERFORD
Executive Secretary

Royal Society of Edinburgh

Consulting Editors

Professor F. M. ARSCOTT
University of Manitoba

Professor F. V. ATKINSON
University of Toronto

Professor R. CONTI
Istituto Matematico, Firenze

Dr W. A. COPPEL
Australian National University

Dr M. S. P. EASTHAM
Chelsea College, London

Professor D. E. EDMUNDS
University of Sussex

Professor AVNER FRIEDMAN
Northwestern University, Evanston, Illinois, USA

Professor J. K. HALE
Brown University, Providence, RI, USA

Professor P. R. HALMOS
University of Indiana, Bloomington, USA

Professor Dr E. M. DE JAGER
University of Amsterdam

Professor TOSIO KATO
University of California, Berkeley, USA

Professor A. M. MACBEATH
University of Birmingham

Professor Dr E. MEISTER
Technical University of Darmstadt, Germany (FDR)

Professor ÅKE PLEIJEL
University of Uppsala, Sweden

Professor A. P. ROBERTSON
University of Western Australia, Nedlands, Australia

Professor G.-C. ROTA
Massachusetts Institute of Technology, USA

Professor S. M. SHAH
University of Kentucky, Lexington, Kentucky, USA

Professor Dr F. STUMMEL
Johann Wolfgang-Goethe University, Frankfurt am Main, Germany (FDR)

Professor F. URSELL
University of Manchester

Professor J. WERMER
Brown University, Providence, RI, USA

CONTENTS

NO.		PAGE
1	On Square-integrable Solutions of Symmetric Systems of Differential Equations of Arbitrary Order. By V.I. KOGAN and F. S. ROFE-BEKETOV .	5
2	On Weyl's Function $m(\lambda)$. By S. D. WRAY, Department of Mathematics, University of the Witwatersrand	41
3	A Criterion for the Existence of Solutions of Non-linear Elliptic Boundary Value Problems. By JOHANNA DEUEL, Swiss Institute of Technology (Department of Mathematics), Zurich, and PETER HESS, Mathematics Institute, University of Zurich	49
4	Perturbations of Non-linear Integral Operators. By FREIDRICH STUMMEL, Department of Mathematics, Johann Wolfgang Goethe-Universität, Frankfurt am Main	55
5	The Uniform Asymptotic Stability of Certain Linear Differential-difference Equations. By R. DATKO, Georgetown University, Washington, DC 20007, USA	71
6	Rationally Convex Hulls and Potential Theory. By RICHARD F. BASENER, Department of Mathematics, Yale University	81
7	Elliptic Singular Perturbations of First-order Operators with Critical Points. By P. P. N. DE GROEN, Wiskundig Seminarium, Vrije Universiteit, Amsterdam	91
8*	A Rule relating the Deficiency Indices of L^j to those of L^k. By ROBERT M. KAUFFMAN, Department of Mathematics, University of Dundee . .	115
9*	Development and Separation of a Laminar Boundary Layer, under the Action of a Very Sharp Constant Adverse Pressure Gradient. By N. CURLE, Department of Applied Mathematics, University of St Andrews .	119
10*	An Abstract Relation for Multiparameter Eigenvalue Problems. By A. KÄLLSTRÖM and B. D. SLEEMAN, Department of Mathematics, University of Dundee	135
11*	A Left Definite Multiparameter Eigenvalue Problem in Ordinary Differential Equations. By A. KÄLLSTRÖM and B. D. SLEEMAN, Department of Mathematics, University of Dundee	145
12*	Sequences of Deficiency Indices. By T. T. READ, Department of Mathematics, University of Dundee	157
13	The Functional Differential Equation $y'(x) = ay(\lambda x)+by(x)$. By JACK CARR and JANET DYSON, Mathematical Institute, Oxford . . .	165
14	Dynamic Programming applied to Some Non-linear Stochastic Control Systems. By A. T. FULLER, Department of Engineering, University of Cambridge	175
15	The Propagation of Second-order Lipschitz Discontinuities in Quasi-linear Hyperbolic Systems with Discontinuous Coefficients. By ALAN JEFFREY and ESIN INAN, Department of Engineering Mathematics, University of Newcastle upon Tyne	205

https://doi.org/10.1017/S0308210500016498 Published online by Cambridge University Press

NO. PAGE

16* On Uniqueness of Topological Degree for Set-valued Mappings. By J. R. L. WEBB, Department of Mathematics, University of Glasgow . . . 225

17* A New Class of Bessel Function Inequality useful for investigating the Roots of a Class of Transcendental Equation involving Bessel Functions. By A. D. RAWLINS, Department of Mathematics, University of Dundee . . 231

18 Asymptotic Estimates for the lengths of the gaps in the Essential Spectrum of Self-adjoint Differential Operators. By M. S. P. EASTHAM, Department of Mathematics, Chelsea College, London 239

19 Asymptotic Stability for Some Functional Differential Equations. By HANS-OTTO WALTHER, Mathematisches Institut der Universität, München 253

20 Inequalities for the Capacity of an Electrified Conducting Annular Disc. By E. R. LOVE, Department of Mathematics, University of Melbourne, Australia 257

21 On Expansive Free Interactions in Boundary Layers. By S. N. BROWN, K. STEWARTSON and P. G. WILLIAMS, Department of Mathematics, University College, London 271

22* A Critical Class of Examples concerning the Integrable-square Classification of Ordinary Differential Equations. By W. N. EVERITT, Department of Mathematics, University of Dundee, and M. GIERTZ, Department of Mathematics, The Royal Institute of Technology, Stockholm, Sweden . 285

23 Oscillation Phenomena in the Hodgkin-Huxley Equations. By WILLIAM C. TROY, Department of Mathematics, University of Pittsburgh . . . 299

24 The Solution of Initial-Boundary Value Problems for Pseudoparabolic Partial Differential Equations. By WILLIAM RUNDELL, Department of Mathematics, Texas A & M University, College Station, Texas 77843, USA. 311

*The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for a grant towards the cost of these papers.
