

How to Write and Publish a Scientific Paper

Third Edition

R. A. DAY

This third edition of **How to Write and Publish a Scientific Paper** contains the rules, hints and tips that will enable scientists to write clearly and effectively, whatever the medium and whatever their purpose. The book includes information on how to write articles, papers, reviews, theses, conference reports and books. It covers the complete writing process from the choice of a title to the review process and how to deal with editors.

- contains new information on electronic manuscript preparation
- explains how to use computers to create effective tabulation
- uses detailed examples throughout
- includes methods of presentation - charts, tables, and illustrations for maximum effect

This new edition includes practical advice on grammar, proof reading, tables and illustrations and a list of commonly used and misused abbreviations, expressions and terms.
