

# CLAY MINERALS

VOLUME 18, NUMBER 3, SEPTEMBER 1983

## CONTENTS

G. LEONE, E. REYES, G. CORTECCI, A. POCHINI and J. LINARES. Genesis of bentonites from Cabo de Gata, Almeria, Spain: a stable isotope study	227
T. G. COLE and H. F. SHAW. The nature and origin of authigenic smectites in some recent marine sediments	239
P. J. ISAACSON and B. L. SAWHNEY. Sorption and transformation of phenols on clay surfaces: effect of exchangeable cations	253
J. VICENTE-HERNANDEZ, M. A. VICENTE, M. ROBERT et B. GOODMAN. Evolution des biotites en fonction des conditions d'oxydo-reduction du milieu	267
K. BRANSON and A. C. D. NEWMAN. Water sorption on Ca-saturated clays: I. Multilayer sorption and microporosity in some illites	277
E. C. ORMEROD and A. C. D. NEWMAN. Water sorption on Ca-saturated clays. II. Internal and external surfaces of montmorillonite	289
E. MURAD and U. SCHWERTMANN. The influence of aluminium substitution and crystallinity on the Mössbauer spectra of goethite	301
R. ISHERWOOD and B. R. JENNINGS. Surface-charge determination of crocoidite particles in suspension	313
Notes	
T. G. COLE and H. F. SHAW. Kerolite associated with anhydrite in sediments from the Atlantis II Deep, Red Sea	325
A. SHAYAN. An amorphous product of complex composition in a Siluro-Devonian siltstone	333
I. W. CROUDACE and N. D. ROBINSON. A simple, rapid and precise smear method for the preparation of oriented smear mounts	337
Book Review	341
