

GENERAL NOTES

ROYAL SOCIETY OF MEDICINE.

1 *Wimpole Street, London, W.1.*

Section of Laryngology. The next Meeting of the Section will be held on Friday, May 5th, at 5 o'clock. The meeting will be a Clinical one and those wishing to show cases are asked to send the notes to the Senior Secretary at least twelve days before the meeting. *President:* Mr. Musgrave Woodman, 22 Newhall Street, Birmingham. *Hon. Secretaries:* Mr. F. J. Cleminson, 32 Harley Street, London, W.1, and Mr. H. G. Bedford Russell, 86 Harley Street, London, W.1.

* * *

Section of Otology. The next Meeting of the Section will be held on Friday, May 5th, at 10.30 a.m. A paper will be read by Dr. Albert Gray on "A Case of Eighth Nerve Tumour", and a discussion will take place on "The Treatment of Chronic Suppurative Otitis Media". This will be opened by Mr. T. Ritchie Rodger. *President:* Mr. J. F. O'Malley, 6 Upper Wimpole Street, London, W.1. *Hon. Secretaries:* Mr. C. Gill Carey, 106 Harley Street, London, W.1, and Mr. P. J. Jory, 26 Queen Anne Street, London, W.1.

* * *

The Summer Meeting of the Conjoint Sections of Otology and Laryngology of the Royal Society of Medicine will be held this year in conjunction with the Scotch Oto-rhino-laryngological Society in Edinburgh on Friday and Saturday, the 2nd and 3rd June.

* * *

SCOTTISH SOCIETY OF OTOLOGY AND LARYNGOLOGY.

The Society offers a prize of £20 for the best piece of Clinical or Laboratory Research work in Oto-laryngology.

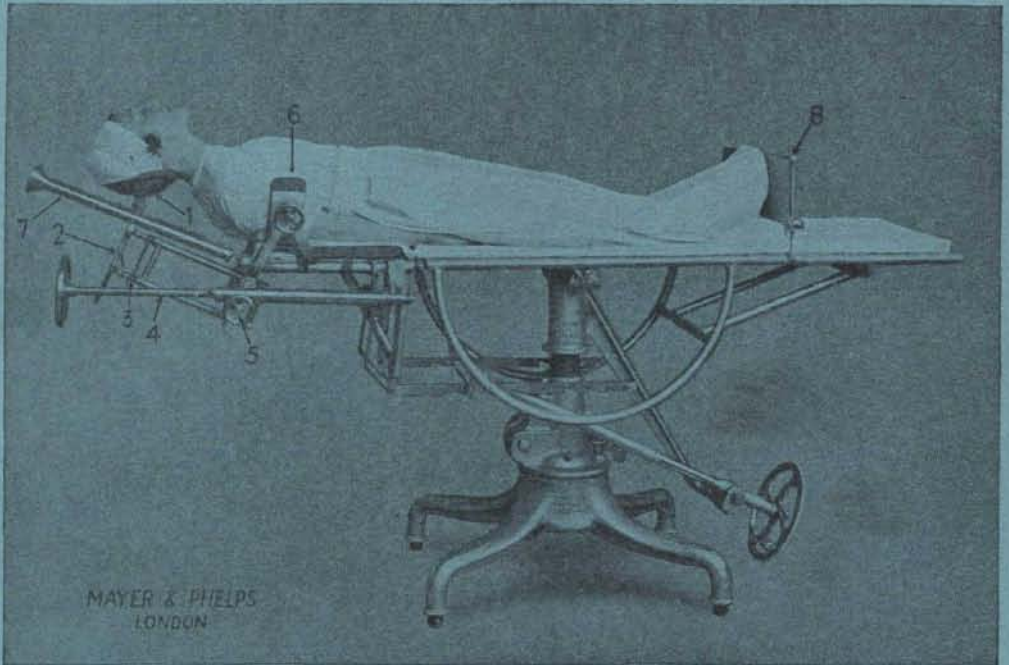

The prize is open to Clinical Tutors, House Surgeons, and Clinical Assistants attached to the Clinics of Ordinary and Corresponding Members of the Scottish Society of Otology and Laryngology.

The papers embodying the research work must be sent to the Honorary Secretary, Dr. James Harper, 21 Woodside Terrace, Glasgow, C.3, not later than Monday, May 1st, 1933.

Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.B., B.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
