TRADE MARK. **"TABLOID" BRAND.**

COMPRESSED DRUGS FOR THE THROAT AND VOICE.

"TABLOID" COMPRESSED DRUGS, when intended for the treatment of the Throat and Voice, are so compressed as to dissolve slowly, and produce a prolonged action on the mucous membrane. There are no sugary or gummy substance present to interfere with the action of the medicament, and therefore a highly concentrated solution is formed in the mouth, and remains in continuous contact with the affected mucous membrane, until the whole of the "Tabloid" is dissolved. Thus the "Tabloid" presents conspicuous advantages over lozenges, gargles, and ordinary throat applications.
