THE BULLETIN OF SYMBOLIC LOGIC (ISSN print: 1079-8986, ISSN online: 1943-5894) is published quarterly, in the months of March, June, September, and December, by the Association for Symbolic Logic, Inc., 124 Raymond Avenue, Poughkeepsie, NY 12604-0001, USA. Periodicals postage is paid at Poughkeepsie NY and at additional mailing offices. The BULLETIN is distributed with THE JOURNAL OF SYMBOLIC LOGIC; the 2009 annual subscription price for the two journals is US\$575. Online subscription is available from Project Euclid; visit <http://projecteuclid.org/bsl>. Postmaster: Send address changes to *The Bulletin of Symbolic Logic*, c/o American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA. Business correspondence should be sent to the Secretary-Treasurer of the Association, Charles Steinhorn (address on inside back cover).

The BULLETIN, the JOURNAL, and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in all aspects of symbolic logic. The BULLETIN encourages submission of *Articles* and *Communications* in all areas of logic, including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields. The BULLETIN also publishes reviews of publications in logic.

Articles should be of broad interest and accessible to a wide audience of logicians. They may be purely expository, survey, or historical articles, or they may contain, in addition, new ideas or results or new approaches to old ones.

Communications should be announcements of important new results and ideas in any aspect of logic; they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final versions.

The paper used in this BULLETIN is acid-free and falls within the guidelines established to ensure permanence and durability.

This BULLETIN has been registered with the Copyright Clearance Center, Inc. The appearance of a code at the bottom of the first page of an article indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U. S. Copyright Law, provided that the per-copy fee stated in the code is paid directly to Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA. This consent does not extend to copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale. Specific written permission for such copying must be obtained from the Association.

CONTENTS OF VOLUME 15

ARTICLES

BLASS, ANDREAS, DERSHOWITZ, NACHUM, and GUREVICH, YURI. When are two algorithms the same?	145
KANAMORI, AKIHIRO. Bernays and set theory	43
PLISKO, VALERY. A survey of propositional realizability logic	1
ROSENDAL, CHRISTIAN. Automatic continuity of group homomorphisms	184
SASYK, ROMÁN and TÖRNQUIST, ASGER. Borel reducibility and classification of von Neumann algebras	169
URQUHART, ALASDAIR. Enumerating types of Boolean functions	273

COMMUNICATIONS

DELORO, ADRIEN. Actions of groups of finite Morley rank on small abelian groups	70
KASTERMANS, BART. Isomorphism types of maximal cofinitary groups	300
SIMPSON, STEPHEN G. Mass problems and measure-theoretic regularity	385
WELCH, P. D. Games for truth	410

REVIEWS

M. Wille, <i>Die Mathematik und das synthetische Apriori</i> . Reviewed by Mark van Atten	91
