

**Nutrition Research Reviews**, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 9, 1996, is £50 including postage (US \$90 in USA, Canada and Mexico).

**The Proceedings of the Nutrition Society**, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £144.00 (US \$264.00 in USA, Canada and Mexico). Single issues are £53.00 (US \$98.00 in the USA, Canada and Mexico) each; postage extra.

**Copying.** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/96 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Information of *The British Journal of Nutrition* and all other Cambridge journals is available on <http://www.cup.cam.ac.uk/> and in North America on <http://www.cup.org/>.

## CONTENTS

**Pre-industrial diets**

- Honey revisited: a reappraisal of honey in pre-industrial diets. *Karen A. Allsop & Janette Brand Miller* 513-520

**Prediction of faecal output**

- Ability of mathematical models to predict faecal output with a pulse dose of indigestible marker. *P. Susmel, B. Stefanon, M. Spanghero & C. R. Mills* 521-532

**Dietary intake of vegetarian and omnivorous children**

- The dietary intake of a group of vegetarian children aged 7-11 years compared with matched omnivores. *Indira Nathan, Allan F. Hackett & Simon Kirby* 533-544

**Fat replacement and food intake**

- Fat substitution and food intake: effect of replacing fat with sucrose polyester at lunch or evening meals. *Jacqui R. Cotton, Victoria J. Burley, Jan A. Weststrate & John E. Blundell* 545-556

**Legumes and lipid metabolism in rats**

- Comparative effects on blood lipids and faecal steroids of five legume species incorporated into a semi-purified, hypercholesterolaemic rat diet. *Fatima D. Dabai, Ann F. Walker, Ian E. Sambrook, Vernon A. Welch, Robert W. Owen & Savitri Abevasekera* 557-571

**Lipid metabolism in chicken liver**

- Carry-over effects of dietary crude protein and triiodothyronine (T<sub>3</sub>) in broiler chickens. *R. W. Rosebrough, A. D. Mitchell & J. P. McMurry* 573-581

**Fatty acid changes during weight-cycling**

- Accumulation of polyunsaturates is decreased by weight-cycling: whole body analysis in young growing rats. *Zhen-yu Chen, Chantale R. Menard & Stephen C. Cannane* 583-591

**Induced ketosis in ewes**

- Maternal undernutrition during late pregnancy in sheep. Its relationship to maternal condition, gestation length, hepatic physiology and glucose metabolism. *Hilary J. West* 593-605

**Zinc absorption**

- Zinc absorption in adult humans: the effect of protein sources added to liquid test meals. *Lena Davidsson, Annette Almgren, Brittmarie Sandström, Marcel-A. Juillerat & Richard F. Hurrell* 607-613

**Vitamin A metabolism in rats**

- Streptozotocin-induced diabetes in rats is associated with impaired metabolic availability of vitamin A (retinol). *P. J. Tuitoek, S. Ziari, A. T. C. Tsin, R. V. Rajotte, Miyoung Suh & Tapan K. Basu* 615-622

- Supplemental vitamin A enhances the recovery from iron deficiency in rats with chronic vitamin A deficiency. *Annet J. C. Roodenburg, Clive E. West, Robert Hovenier & Anton C. Beynen* 623-636

**Vitamin D supplementation in pre- and postmenopausal women**

- Changes in vitamin-D metabolites and parathyroid hormone in plasma following cholecalciferol administration to pre- and postmenopausal women in the Netherlands in early spring and to postmenopausal women in Curaçao. *Fiona R. M. van der Klis, Jan H. P. Jonxis, Jasper J. van Doormaal, Peter Sikkens, Alejandro E. C. Saleh & Frits A. J. Muskiet* 637-646

**Announcements**

647-648
