Dear Colleagues

At the Centre for Multicultural Studies, we have been given the opportunity to carry out some very practical, action oriented research so that we may learn more about efficient and effective teaching strategies in primary school classrooms which cater for children from culturally different backgrounds.

Each one of you is involved in providing quality educational opportunities for children in your classroom. We would like to learn from you - your approaches, teaching style, classroom management etc.

If you are interested in taking part in this exciting venture, please write to us providing the following information:

- Your name
- The grade you teach
- The ethnic composition of your grade
- The name of the school and its location
- The name of the person(s) we need to contact for permission.

We hope that you will join us in this professional challenge. For too long we have been saying what teachers *might* do. Let's now work on some strategies that really work - together.

Dr A-K. Eckermann
