THE QUEST FOR CHRISTIAN UNITY

Gregory Baum, O.S.A.

Protestants and Catholics have begun to know and love one another. Here is a basis for ecumenical theology, a record of achievement and an analysis of ecumenical prospects.

THE SEXUAL EDUCATION OF CHILDREN

André Berge

A companion volume to our recent success *Psychology of Sex Instruction*, this book is concerned with the milieu in which we teach our children about sex and the attitudes we must adopt.

TO PREACH THE GOSPEL

Paul Hitz, C.S.S.R.

10/6

Preaching is often regarded as a joke yet it is fundamentally part of the Liturgy. An intelligent theological examination of what is involved in the mission to preach is the subject of this title.

AUTUMN BOOKS

Owlbooks:

CONTROL OR CONSENT

James Halloran

12/6

Much has been written about advertising and mass media but as in so many other cases Catholics have rarely contributed anything of value. It is clear that moral problems are involved and the author, a sociologist, is concerned with this as well as social study of mass media.

MARY: A HISTORY OF DOCTRINE AND DEVOTION

Hilda Graef

42/-

In the new theological awakening it is worth examining the history of one field of major theological development. The emotional temperatures engendered by devotion to Mary have sometimes been extreme. Miss Graef studies at length both what is valuable and what has been excessive in the past. The first volume covers this history from the beginning of the Church until the eve of the Reformation.

CHRIST THE SACRAMENT

E. Schillebeeckx, O.P.

15/-

There is a tendency to regard the sacraments as being rather like a tap for turning on grace. That this is a travesty of intelligent thinking should be obvious. But it takes a theologian of the author's standing to show us just how fundamental the sacraments are in our relation to God. The original title is *Christ, Sacrament of Our Encounter With God*.

MISSION AND GRACE

Karl Rahner, S.J.

Karl Rahner has won international renown as a theologian. We are publishing one of his major works in three volumes in order to make it more accessible. This first volume is concerned with what the Church is like and what it should be like in modern society.
