

be a very hard struggle to have these deficiencies rectified. This will be all the more galling if those facilities had existed in the previous, mental hospital based, model of psychiatric care.

Acknowledgements

We are grateful to Deborah Hart and Mary Mason for their help in the preparation of this paper, and to Dr Geoffrey Wallis for organising a forum for discussion on the topic.

College policies

The Library staff have produced a print-out from the Policy Index database which lists the main College policy documents to appear in the *Bulletin* since 1971. The publication includes a keyword index, as well as a list of the College bodies or committees responsible for these documents; *Royal College of Psychiatrists (1989) Index to Statements, Guidelines and Policy Documents of the College 1971–89*. Price: £2.00.

Were you there?

A group photograph of members of the Royal Medico-Psychological Association taken by the Royal Society of Medicine Photographic and Film Unit is now hanging outside the library office. The photograph dates from about 1970 and shows 46 men and three women at what was probably one of the last meetings of the RMPA before it became the Royal College of Psychiatrists. The President, Martin Cuthbert, is in the centre of the group and some of the other figures have also been identified. We would welcome any suggestions as to the remaining members of the group.

Urgent Examinations Notice

Discipline at written paper centres

The Court of Electors has become most concerned at several recent incidents in which certain candidates have refused to stop writing when asked to do so by Invigilators.

Any future violation of the Examination discipline will not be viewed leniently by the Court of Electors.

Candidates who break the Examination rules in this way will not only be disqualified immediately but will also run the risk of being banned from making any future attempt at the Examination.

It is a matter of urgency that all potential candidates should be fully aware of this very serious matter, and it would be particularly helpful if Clinical Tutors could take the opportunity of warning all such trainees under their supervision.

Election of Honorary Officers

The nominating meeting of Council for Honorary Officers will be held on 3 May 1990 and the last date for receiving nominations will therefore be 31 May

1990. Further details about these elections will be circulated with the next edition of the *Bulletin*.

Report available

Council recently approved a Report *Guidelines on Good Practice in the Use of Behavioural Treatments* which is available from the College upon request at £2.00 per copy.

Erratum

Elections to the Fellowship, 1990

In the March issue of the *Psychiatric Bulletin* (p. 187) Professor S. L. Purshotamdas should have read Professor L. P. Shah.
