

(Continued from p. iv of wrapper)

The use of <i>n</i> -paraffin-grown yeast in diets for chicks. By A. I. LABIB and D. HEWITT	77A
Nutritive value and toxicity of <i>Sauropus androgynous</i> . By A. E. BENDER and K. S. ISMAIL	78A
The energy cost of nitrogen metabolism in chicks. By P. J. BUTTERY, K. N. BOORMAN and EILEEN BARRATT	79A
The influence of oral contraceptives on the effect of low-protein-high-sucrose or low-protein-high-starch diets on male rats. By D. B. JEFFERYS and I. R. WHITE	80A
The influence of dietary carbohydrates and proteins on faecal nitrogen excretion in rats. By V. C. MASON and R. M. PALMER	81A
Processing maize and urea efficiency: in vitro evaluation and growth trial in kids. By L. P. BORGIDA, M. DURAND and J. DELORT-LAVAL	82A
Effects of different dietary nitrogen sources on metabolism in the stomach of the calf. By R. H. SMITH and A. B. MCALLAN	83A
Metabolism of casein in the rumen and some effects of formaldehyde treatment. By A. P. WILLIAMS, A. B. MCALLAN and R. H. SMITH	84A
<i>N</i> -steroyl-DL-methionine—a new form of protected methionine for ruminant feeds. By P. N. LANGAR, P. J. BUTTERY and D. LEWIS	85A
The methionine requirement of growing lambs. By J. R. MERCER and E. L. MILLER	86A
Contribution of microbial and undegraded dietary protein to the potential protein utilization in young ruminants. By E. R. ØRSKOV and A. W. BOYNE	87A
The effect of energy source on the passage of nitrogen and amino acids to the duodenum in sheep fed on urea or fish meal. By J. D. OLDHAM, H. SWAN and D. LEWIS	88A
The influence of the level of feeding on the digestion of a diet consisting of barley, hay and flaked maize. By J. C. HODGSON and P. C. THOMAS	90A

INDEX OF AUTHORS

Anderson, L. J.	61A	Goddard, P.	49	Odumoso, A.	67A
Annisson, E. F.	107	Goodall, E. D.	59A	Oldham, J. D.	88A
Armstrong, D. G.	107	Hawksworth, G.	49	Ørskov, E. R.	68A, 87A
Barratt, E.	79A	Hewitt, D.	77A	Palmer, R. M.	81A
Bender, A. E.	73A, 78A	Hill, M. J.	49	Peach, S.	49
Bines, J. A.	74A, 75A	Hodgson, J. C.	90A	Razzaque, M. A.	58A, 59A
Boorman, K. N.	79A	Ismail, K. S.	73A, 78A	Renwick, A.	49
Borgida, L. P.	82A	Jeffereys, D. B.	60A, 80A	Rudra, D. N.	74A
Boyne, A. W.	87A	Jones, P. A.	74A	Salter, D. N.	65
Broster, W. H.	115	Kay, R. N. B.	59A	Schaedler, R. W.	41
Buttery, P. J.	76A, 79A, 85A	Labib, A. I.	77A	Smith, A.	62A
Chalupa, W.	99	Langar, P. N.	85A	Smith, R. H.	83A, 84A
Clapperton, J. L.	57A	Leng, R. A.	93	Soar, J. B.	76A
Close, W. H.	70A, 71A, 71A	Lewis, D.	76A, 85A, 88A	Suttle, N. F.	69A
Coates, M. E.	53	Lough, A. K.	61A, 62A	Swan, H.	88A
Crowther, J. S.	49	McAllan, A. B.	83A, 84A	Thomas, P. C.	85, 90A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 32, No. 2, SEPTEMBER 1973

SYMPOSIUM PROCEEDINGS

*Two Hundred and Fifty-third Scientific Meeting
Institute of Child Health, 30 Guilford Street, London
8 DECEMBER 1972*

GUT MICROFLORA AND NUTRITION IN THE NON-RUMINANT
*Chairman: PROFESSOR C. C. BOOTH, MD, FRCP, Royal Postgraduate Medical School,
Hammersmith Hospital, London*

	PAGE
The relationship between the host and its intestinal microflora. By R. W. SCHAEGLER	41
The relation between diet and the gut microflora in man. By B. S. DRASAR, J. S. CROWTHER, P. GODDARD, GABRIELLE HAWKSWORTH, M. J. HILL, SUSAN PEACH, R. E. O. WILLIAMS and A. RENWICK	49
Gnotobiotic animals in nutrition research. By MARIE E. COATES	53
Role of the gut microflora in metabolism of lipids and sterols. By H. EYSSON	59
The influence of gut micro-organisms on utilization of dietary protein. By D. N. SALTER	65
The influence of gut micro-organisms on the metabolism of drugs and food additives. By R. WALKER	73

*Two Hundred and Fifty-fifth Scientific Meeting
University of Nottingham School of Agriculture, Sutton Bonington, Loughborough
29 MARCH 1973*

NITROGEN UTILIZATION BY THE RUMINANT*
*Chairman: PROFESSOR D. LEWIS, MA, DSC, FRIC, University of Nottingham School of Agriculture,
Sutton Bonington, Loughborough*

Evaluation of foods as sources of nitrogen and amino acids. By E. L. MILLER	79
Microbial protein synthesis. By P. C. THOMAS	85
Nitrogen cycling in sheep. By J. V. NOLAN, B. W. NORTON and R. A. LENG	93
Utilization of non-protein nitrogen in the production of animal protein. By W. CHALUPA	99
Amino acid requirements and amino acid supply in the sheep. By D. G. ARMSTRONG and E. F. ANNISON	107
Protein-energy interrelationships in growth and lactation of cattle and sheep. By W. H. BROSTER	115

ABSTRACTS OF COMMUNICATIONS

*Two Hundred and Fifty-four Scientific Meeting
Mathematics Building, University of Glasgow
23 FEBRUARY 1973*

The effect of the addition of trichloroacetamide and chloroform to the rumen of sheep on the fermentation. By J. L. CLAPPERTON	57A
Determination of hypoxanthine, xanthine and uric acid in ruminants' urine. By M. A. RAZZAQUE and J. H. TOPPS	58A
Metabolism of nucleic acids by sheep and red deer. By M. A. RAZZAQUE, J. H. TOPPS, E. D. GOODALL and R. N. B. KAY	59A
The lipid response to female gonadal hormones, of male rats given a high-sucrose diet. By B. D. JEFFEREYS and I. R. WHITE	60A
Effect of ensilage on the lipids of pasture grasses. By A. K. LOUGH and L. J. ANDERSON	61A
Nature of the association between unesterified long-chain fatty acids and particulate matter in duodenal digesta of sheep. By A. SMITH and A. K. LOUGH	62A
An indirect estimation of rate of formation of long-chain fatty acids in the rumen of sheep. By J. W. CZERKAWSKI	63A
The establishment of rumen ciliate protozoa in sheep fed on whole barley to appetite. By J. MARGARET EADIE	64A
Energy metabolism of growing rats. 1. Effect of energy and protein intake on energy retention. By K. J. MCCRACKEN	65A
Energy metabolism of growing rats. 2. Estimation of efficiency of deposition of protein and fat. By K. J. MCCRACKEN and S. T. C. WEATHERUP	66A
A sex difference in scorbutic guinea-pig survival. By A. ODUMOSU and C. W. M. WILSON	67A
The effect of level of feeding and protein concentration on disappearance of protein in different segments of the gut in sheep. By E. R. ØRSKOV and C. FRASER	68A
An interaction between organic sulphur and molybdenum affecting copper metabolism in sheep. By N. F. SUTTLE	69A

*Two Hundred and Fifty-sixth Scientific Meeting
University of Nottingham School of Agriculture, Sutton Bonington, Loughborough
30 MARCH 1973*

The effective critical temperature in groups of pigs. By L. E. MOUNT, W. H. CLOSE and M. W. A. VERSTEGEN	70A
The energy costs of maintenance and production in the growing pig. By W. H. CLOSE, M. W. A. VERSTEGEN and L. E. MOUNT	71A
The optimum duration of metabolic balance experiments with groups of pigs. By M. W. A. VERSTEGEN, L. E. MOUNT and W. H. CLOSE	71A
Effect of anaesthetic on sucrose-fed rats. By A. E. BENDER, K. B. DAMJI and K. S. ISMAIL	73A
Lipid peroxide in the developing rat brain. By R. WALKER, D. N. RUDRA and J. W. T. DICKERSON	74A
The effect of a long-term reduction in rumen capacity on the intake of hay by a cow. By J. A. BINES, P. A. JONES and D. J. NAPPER	74A
The effect of urea on the intake of straw by fat cows and thin cows. By J. A. BINES and D. J. NAPPER	75A
Ammonia toxicity in sheep. By J. B. SOAR, P. J. BUTTERY and D. LEWIS	76A

CAMBRIDGE UNIVERSITY PRESS

Bentley House, 200 Euston Road, London NW1 2DB
American Branch: 32 East 57th Street, New York, N.Y. 10022
Single parts £4.00 net in U.K. (U.S. \$12.00 in U.S.A. and Canada).
Subscription price £9.00 net in U.K. (U.S. \$30.00 in U.S.A. and Canada).

Lampart Gilbert Printers Ltd. Reading, England

*Copies of this complete symposium may be obtained from: Professor T. G. Taylor (The Nutrition Society) c/o Dept. of Physiology & Biochemistry, Medical & Biological Sciences Building, The University, Southampton, SO9 3TU. The cost is £1.00 (\$2.50). Remittance should be sent with the order. Cheques or Postal Orders should be made payable to 'The Nutrition Society'.
