QUANTITATIVE SOCIAL SCIENCE RESEARCH ON LATIN AMERICA

edited by Robert S. Byars and Joseph L. Love

In this guidebook to research on Latin America, six leading practitioners of quantitative approaches evaluate relevant studies and indicate critical areas for new research in their respective disciplines: Peter H. Smith (history), Robert C. Hunt (social anthropology), George Cowgill (archaeology), Howard L. Gauthier (geography), Clifford Kaufman (political science), and Alejandro Portes (sociology). An appendix describes sixteen data banks in the United States and Latin America and supplies information on the type of studies for which data were collected, the countries and time ranges covered, and the means of access. "Fills a considerable void in our knowledge of quantitative social science research on Latin America."—*Orbis*. 272 pages. \$8.95

SINNERS AND HERETICS

The Politics of Military Intervention in Latin America

Mauricio Solauñ and Michael A. Quinn

The causes of coups d'état in Latin America are explored in detailed investigations of thirty different coups and contemporary theories of political stability and breakdown. The authors contrast intraclass conflicts enacted by primitive radicals ("sinners") with interclass confrontation enacted by ideological radicals ("heretics"). Drawing from legal theory, they establish optimal requirements for political stability in a democratic context. "Latin American sociologists and economists will find interesting commentary in this thorough analysis."—*Library Journal*. 288 pages. \$8.95

LATIN AMERICAN MODERNIZATION PROBLEMS

Case Studies in the Crises of Change

edited by Robert E. Scott

Eight in-depth probes of specific problems, ranging from a Brazilian factory worker's political values through the legal maze of Colombia's land reform to a critique of nation-building efforts by military regimes in Latin America, show just how technology and its unintended side effects overburden the social, economic, and political structures. Recommended by *Library Journal*. 373 pages. \$12.50

UNIVERSITY OF ILLINOIS PRESS URBANA, ILLINOIS 61801

L.A.S.—back

Brazil

The Land and the People

Rollie E. Poppino

This book concentrates on the social and economic development of Brazil from colonial times to the present. For the second edition, the bibliography, tables, and statistics have been updated. The last two chapters discuss the rapid changes that have taken place since the mid-1960s: the high economic growth rate, the government's growing concern with social issues, the systematic political repression. Second edition £4.25 paper covers £1.40
OUP New York

Os Lusíadas

Luís de Camões

Edited by Frank Pierce

The great epic poem *The Lusíads* by the sixteenth-century Portuguese poet Luís de Camões appears here in the first English edition since 1946. The introduction provides a critical survey of the poet's life and works, considers the influence of the poem in Portugal and abroad, and attempts to explain its place in European history. £1.40

Buenos Aires

Plaza to Suburb 1870-1910

James R. Scobie

This is a social and economic history of South America's largest city in the period of its most rapid growth. The book describes the development of the port of Buenos Aires, the establishment and expansion of rail links, the way the streetcar transformed the city, the conflict between city and Federal Government. It also deals with social structure, immigration patterns, and the changing nature of housing. £5.75 *OUP New York*

To Hunt in the Morning

Janet Siskind

This is an ethnographic study of the Sharanahua Indians of Peru. The author's contrasting of real behaviour and norms of behaviour is important both to anthropologists who study behaviour and to laymen interested in this subject. The book closes with a frank discussion of how the Indians are changing under the impact of the ever-encroaching Peruvian culture. Illustrated £3.15 *OUP New York*

Akwe-Shavante Society

David Maybury-Lewis

Illustrated paper covers £1.40 *OUP New York*

Oxford

New from PRINCETON

THE UNITED STATES AND THE CARIBBEAN REPUBLICS, 1921-1933

DANA GARDNER MUNRO

Dana Gardner Munro discusses the shift in United States policy from that of active intervention to one of noninterference in the internal political affairs of the Caribbean states. In his analysis the author concentrates on several important issues—the failure to compel political reforms in Cuba from 1921 to 1923, the withdrawal of the occupations from the Dominican Republic and Haiti, the intervention in Nicaragua, the response to the Machado and Trujillo dictatorships, and the refusal to recognize revolutionary governments in Central America. \$17.50

THE BRAZILIAN-AMERICAN ALLIANCE, 1937-1945

FRANK D. McCANN, JR.

Frank D. McCann uses previously inaccessible Brazilian archival material to discuss the events which brought about a close alliance between the United States and Brazil during the regime of Getulio Dornelles Vargas. The author's analysis of Brazil's decision to join the Allies affords a view of the diplomatic uses of economic and military aid and provides insights into the military's influence on foreign policy, and into the functioning of Vargas' *Estado Novo*. \$18.50

LIBERAL AMERICA AND THE THIRD WORLD

Political Development Ideas in Foreign Aid and Social Science

ROBERT A. PACKENHAM

"The author has no problem in showing that much of liberal rhetoric about economic development and political democracy in the period of effort and enthusiasm was egregiously optimistic or simply overblown. From this, as the natural counterpart, come some of the present disappointment and pessimism."
—John Kenneth Galbraith, *The New York Times Book Review* \$15.00

CONFLICT AND POLITICAL CHANGE IN VENEZUELA

DANIEL H. LEVINE

To explain the transformation of Venezuela into one of the few effective democracies in Latin America, Daniel H. Levine analyzes the development of modern mass-based political parties, the changing structure and content of social and political conflict, and the emergence of common norms for political behavior. \$13.00

Now in paperback

THE MILITARY IN POLITICS

Changing Patterns in Brazil

ALFRED STEPAN

"A sound and objective study, indispensable for historians concerned with the evolution of the political process in Latin America and highly recommended for those dealing with military governments, past or present, in other areas of the world."—*American Historical Review* Cloth, \$12.50; Paper, \$3.45

The Sugar Industry of Pernambuco, 1840-1910

Modernization Without Change

Peter L. Eisenberg

Mr. Eisenberg offers the first detailed study in English of the decline of the huge sugar industry in Brazil and analyzes the responses of the planters and government. He disputes the findings of other historians who have tended to romanticize slavery and to underplay the extent of the decline of the industry; despite modernization, according to the author, both slaves and free workers were exploited by planters.

LC: 75-117340 307 pages \$15.00

Sovereignty and Society in Colonial Brazil

The High Court of Bahia and Its Judges, 1609-1751

Stuart B. Schwartz

How did the Portuguese royal administrators control the colony of Brazil? In this fascinating study Schwartz presents a detailed analysis of the judicial bureaucracy and the techniques used by the Brazilian elite to maintain their colonial dominance. The author examines the previously unstudied High Court, an institution with broad administrative and political powers, relying on little-used manuscript sources in Brazil, Portugal, Spain, and England.

LC: 76-186112 454 pages \$17.50

The Population of Latin America

Nicolás Sánchez-Albornoz

This is the first attempt to present a comprehensive demographic history of Latin America from preagricultural society to the present, and extending through projections to the year 2000. In each period the author analyzes changes in birth and death, morphology, and spatial distribution, showing clearly the differences between Latin America and the Old World.

Creating Efficient Industrial Administration

By **ARTHUR L. STINCHCOMBE**

With the Assistance of **ZAHAVA BLUM** and **RENE MARDER**

January 1974, 220 pp., \$9.50, £4.45

Drawing upon studies of steel plant administrations in Chile, Argentina, and Venezuela, Professor Stinchcombe analyzes data on such things as the allocation of work time, attitudes toward careers, and attitudes toward political questions that apply to industrial relations. He then uses quantitative analysis to bring these data to bear on the theoretical questions posed by theorists like Max Weber, and concludes—in his typically fresh and laconic manner—that conditions of organizational structure are infinitely more important than cultural values or personal motivations.

CONTENTS:

Part I —INTRODUCTION: The Sociology of Administrative Rationality in Industry

Part II —COGNITION AND BUREAUCRATIC STRUCTURE

Part III—THE MOTIVATION OF ECONOMIC ACTIVITY

Part IV—THE POLITICS OF ECONOMIC DEVELOPMENT

APPENDIX ON METHOD

NOTES FOR CONTRIBUTORS

Journal of Latin American Studies is published twice a year under the academic sponsorship of the Centres or Institutes of Latin American Studies at the Universities of Cambridge, Glasgow, Liverpool, London and Oxford.

The scope of the journal is the study of Latin America from the standpoint of the social sciences, including anthropology, archaeology, economics, geography, history, international relations, politics, sociology, etc., though it is not concerned with linguistic or literary studies.

Editorial policy avoids commitment to any political viewpoint or ideology, but welcomes free discussion of such issues in the Latin American context, on the understanding that all responsibility for opinions expressed rests exclusively with the author concerned and not with either the journal or its editors.

Contributions are invited from all parts of the world. Articles should generally not be more than 8,000 words long, and two copies, typed with double-spacing, should be submitted. Diagrams and maps may be included by arrangement with the editors. The journal is published in English, but articles written in other languages will be considered, and arrangements made as required for translation into English. Contributors should keep one copy of the typescript for use in correcting proofs.

All contributions and editorial correspondence should be addressed to *Journal of Latin American Studies*, Institute of Latin American Studies, 31 Tavistock Square, London, WC1H 9HA.

Each contributor will receive, free of charge, 25 offprints of his article and a copy of the issue of the journal in which it appears.

CONTRIBUTORS TO THIS ISSUE

DR B. T. F. POOLE is Assistant Professor of Spanish at Mount Allison University.

DR LOUISA HOBERMAN is Assistant Professor of History at Wesleyan University, Connecticut.
