

Copying. This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/91 \$5.00 + .00.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The Proceedings of the Nutrition Society, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £90.00 in UK, £93.00 elsewhere net (US \$190.00 in USA and Canada). Single issues are £31.00 (US \$69.00 in the USA and Canada) each; postage extra.

CONTENTS

Editorial

- If the end is lawful, then the means are lawful'. *D. A. T. Southgate* 93-94

Body Composition

- Body fat in lean and overweight women estimated by six methods. *G. McNeill, P. A. Fowler, R. J. Maughan, B. A. McGaw, M. F. Fuller, D. Gvozdanovic & S. Gvozdanovic* 95-103
- Body mass index as a measure of body fatness: age- and sex-specific prediction formulas. *Paul Deurenberg, Jan A. Weststrate & Jaap C. Seidell* 105-114
- Action and interaction of growth hormone and the β -agonist, clenbuterol, on growth, body composition and protein turnover in dwarf mice. *P. C. Bates & J. M. Pell* 115-129

Energy Balance

- The effects of high-energy feeding on energy balance and growth in infants with congenital heart disease and failure to thrive. *Mark Jackson & Elizabeth M. E. Poskitt* 131-143
- Potential contribution of leisure activity to the energy expenditure patterns of sedentary populations. *M. B. E. Livingston, J. J. Strain, A. M. Prentice, W. A. Coward, G. B. Nevin, M. E. Barker, R. J. Hickey, P. G. McKenna & R. G. Whitehead* 145-155

Diet and Placental Development

- Maternal undernutrition during mid-pregnancy in sheep. Placental size and its relationship to calcium transfer during late pregnancy. *G. J. McCrabb, A. R. Egan & B. J. Hosking* 157-168

Development of Intestinal Function

- Digestive development of the early-weaned pig. 1. Effect of continuous nutrient supply on the development of the digestive tract and on changes in digestive enzyme activity during the first week post-weaning. *D. Kelly, J. A. Smyth & K. J. McCracken* 169-180
- Digestive development of the early-weaned pig. 2. Effect of level of food intake on digestive enzyme activity during the immediate post-weaning period. *D. Kelly, J. A. Smyth & K. J. McCracken* 181-188
