<b>Editorial</b>	
The fantastic year of 2010 – and the really hot topic: breast-feeding <i>A Yngve, M Tseng, A Hodge, G McNeill and I Haapala</i>	1945
<b>Monitoring and surveillance</b>	
Evaluating regional differences in breast-feeding in French maternity units: a multi-level approach <i>M Bonet, B Blondel and B Khoshnood</i>	1946
Sources of saturated fat and sucrose in the diets of Swedish children and adolescents in the European Youth Heart Study: strategies for improving intakes <i>E Patterson, J Wärnberg, J Kearney and M Sjöström</i>	1955
Overall and within-food group diversity are associated with dietary quality in Belgium <i>S Vandevijvere, S De Vriese, I Huybrechts, M Moreau and H Van Oyen</i>	1965
Prevalence of hyperhomocysteinaemia in a Chinese elderly population <i>Q-G Qu, J-J Gao and J-M Liu</i>	1974
Effects of migration on food consumption patterns in a sample of Indian factory workers and their families <i>D Bansal, A Satija, N Khandpur, L Bowen, S Kinra, D Prabhakaran, KS Reddy and S Ebrahim</i>	1982
<b>Assessment and methodology</b>	
BMI percentile curves for Chinese children aged 7–18 years, in comparison with the WHO and the US Centers for Disease Control and Prevention references <i>J Ma, Z Wang, Y Song, P Hu and B Zhang</i>	1990
Available energy from soft drinks: more than the sum of its parts <i>AT Merchant, A Tripathi and F Pervaiz</i>	1997
Development of a diet–lifestyle quality index for young children and its relation to obesity: the Preschoolers Diet–Lifestyle Index <i>Y Manios, G Kourlaba, E Grammatikaki, O Androutsos, G Moschonis and E Roma-Giannikou</i>	2000
Proxy measures of household food consumption for food security assessment and surveillance: comparison of the household dietary diversity and food consumption scores <i>G Kennedy, A Berardo, C Papavero, P Horjus, T Ballard, M Dop, J Delbaere and ID Brouwer</i>	2010
<b>Biological and behavioural determinants</b>	
Effect of breast-feeding on weight retention at 3 and 6 months postpartum: data from the North Carolina WIC Programme <i>KM Krause, CA Lovelady, BL Peterson, N Chowdhury and T Østbye</i>	2019
Infant feeding practices among HIV-positive women in Dar es Salaam, Tanzania, indicate a need for more intensive infant feeding counselling <i>SL Young, KA Israel-Ballard, EA Dantzer, MM Ngonyani, MT Nyambo, DM Ash and CJ Chantry</i>	2027
Smoking during pregnancy is associated with higher dietary intake of polycyclic aromatic hydrocarbons and poor diet quality <i>T Duarte-Salles, MA Mendez, V Pessoa, M Guxens, I Aguilera, M Kogevinas and J Sunyer</i>	2034
Long-term consequences of early fruit and vegetable feeding practices in the United Kingdom <i>H Coulthard, G Harris and P Emmett</i>	2044
Diet throughout childhood and age at menarche in a contemporary cohort of British girls <i>IS Rogers, K Northstone, DB Dunger, AR Cooper, AR Ness and PM Emmett</i>	2052
Should we use popular brands to promote healthy eating among children? <i>I Gunnarsdottir and I Thorsdottir</i>	2064
Who eats healthily? A population-based study among young Swiss residents <i>M Meier, A Berchtold, C Akre, P-A Michaud and J-C Suris</i>	2068

Contents continued on backmatter

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a copy of the issue and a PDF of the published paper free of charge. Offprints are available to purchase and can be ordered before publication.

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at [journals.cambridge.org/PHN](http://journals.cambridge.org/PHN), with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 13, 2010 (12 issues):  
Internet/print package: £697/\$1337 Americas only/€1117 EU only  
Internet only: £589/\$1116 Americas only/€936 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Contents continued from outside back cover

**Social, economic, political and environmental determinants**

- Prevalence of breast-feeding in the Norwegian Mother and Child Cohort Study and health service-related correlates of cessation of full breast-feeding 2076  
*A-P Häggkvist, AL Brantsæter, AM Grjibovski, E Helsing, HM Meltzer and M Haugen*
- Factors associated with exclusive breast-feeding and breast-feeding in Norway 2087  
*AL Kristiansen, B Lande, NC Øverby and LF Andersen*
- Breast-feeding in a complex emergency: four linked cross-sectional studies during the Bosnian conflict 2097  
*N Andersson, S Paredes-Solís, J Legorreta-Soberanis, A Cockcroft and L Sherr*
- The CSIRO Total Wellbeing Diet Book 1: sociodemographic differences and impact on weight loss and well-being in Australia 2105  
*B Wyld, A Harrison and M Noakes*
- 'Like me, want me, buy me, eat me': relationship-building marketing communications in children's magazines 2111  
*SC Jones, N Mannino and J Green*

**Interventions**

- Effectiveness of energy-restricted diets with different protein:carbohydrate ratios: the relationship to insulin sensitivity 2119  
*MD Ballesteros-Pomar, AR Calleja-Fernández, A Vidal-Casariego, AM Urioste-Fondo and I Cano-Rodríguez*

**Short communication**

- Is the term 'Mediterranean diet' a misnomer? 2127  
*E Bere and J Brug*

**Letters to the Editor**

2130
