

## Corrigendum

### **DL-Methionine supplementation in a low-fishmeal diet affects the TOR/S6K pathway by stimulating ASCT2 amino acid transporter and insulin-like growth factor-I in the dorsal muscle of juvenile cobia (*Rachycentron canadum*) – CORRIGENDUM**

Yuanfa He, Shuyan Chi, Beiping Tan, Xiaohui Dong, Qihui Yang, Hongyu Liu, Shuang Zhang, Fenglu Han and Di Liu

DOI: <https://doi.org/10.1017/S0007114519001648> (First published online 4 October 2019)

The authors apologise for an error in Table 6 as follows:

The Adj.  $R^2$  of  $B^0AT1$  in the dorsal muscle should be 0.121 after using Quadratic broken-line regression analysis, not 1.212 as shown in the published article. The corrected Table is shown below.

**Table 6.** Effects of dietary methionine (Met) levels on ASCT2 and  $B^0AT1$  relative gene expression in the intestinal tract, liver and dorsal muscle of cobia

	Intestinal tract		Liver		Dorsal muscle	
	ASCT2	$B^0AT1$	ASCT2	$B^0AT1$	ASCT2	$B^0AT1$
