## TABLE OF CONTENTS

### ARTICLES

Descriptive inner model theory, by GRIGOR SARGSYAN .....	1
Non-standard lattices and o-minimal groups, by PANTELIS E. ELEFThERIOU .....	56
The hyperuniverse program, by TATIANA ARRIGONI and SY-DAVID FRIEDMAN .....	77
The Horn theory of Boole's partial algebras, by STANLEY N. BURRIS and H. P. SANKAPPANAVAR .....	97

### REVIEWS

B. Linsky, <i>The Evolution of Principia Mathematica: Bertrand Russell's manuscripts and notes for the second edition</i> . Reviewed by Christopher Pincock .....	106
D. Sangiorgi <i>Introduction to bisimulation and coinduction</i> and D. Sangiorgi and J. Rutten <i>Advanced topics in bisimulation and coinduction</i> . Reviewed by Julian Gutierrez .....	108
A. Máté, M. Rédei and F. Stadler (editors), <i>The Vienna Circle in Hungary</i> . Reviewed by Máté Szabó .....	110
J. Esparza, C. Michaux, and C. Steinhorn, <i>Finite and algorithmic model theory</i> . Reviewed by Michael Benedikt .....	112
Six papers on lowness and highness for randomness notions. Reviewed by Johanna N. Y. Franklin .....	115

(Continued on inside back cover)

THE BULLETIN OF SYMBOLIC LOGIC (ISSN print: 1079-8986, ISSN online: 1943-5894) is published quarterly, in the months of March, June, September, and December, by the Association for Symbolic Logic, Inc., 124 Raymond Avenue, Poughkeepsie, NY 12604-0001, USA. Periodicals postage is paid at Poughkeepsie, NY and at additional mailing offices. The BULLETIN is distributed with THE JOURNAL OF SYMBOLIC LOGIC. The 2013 annual subscription price for the two journals, in either print or electronic form, is US\$650; visit <http://www.aslonline.org/Journals-subscription.html> for more information. **Postmaster:** Send address changes to *The Bulletin of Symbolic Logic*, c/o American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA. Business correspondence should be sent to the Secretary-Treasurer of the Association, Charles Steinhorn (address on inside back cover).

The BULLETIN, the JOURNAL, and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in all aspects of symbolic logic. The BULLETIN encourages submission of *Articles* and *Communications* in all areas of logic, including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields. The BULLETIN also publishes reviews of publications in logic.

*Articles* should be of broad interest and accessible to a wide audience of logicians. They may be purely expository, survey, or historical articles, or they may contain, in addition, new ideas or results or new approaches to old ones.

*Communications* should be announcements of important new results and ideas in any aspect of logic: they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final versions.
