

When Seconds Count...

Count on **Global MED-NETSM** to provide the medical information to help you save lives!

“As a patient moves from one element of the rescue chain to the next, Global Med-NetSM provides the vital link to early availability of crucial medical information; expediting the diagnosis and treatment of patients. I wish all emergency patients were Global Med-NetSM members.”

Dr. Eelco H. Dykstra
*Chairman of the Center For International
Emergency Medical Services
C.I.E.M.S., Europe*

What is Global Med-NetSM?

Global Med-NetSM is a NEW revolutionary medical history provider to emergency departments worldwide.

Global Med-NetSM uses a universally recognized symbol and member number which is easily attached to a members' license, wallet, passport, etc. Emergency personnel call Global Med-NetSM and within seconds, a patient's confidential

medical history is faxed to the emergency personnel who need it, 24 hours a day, 7 days a week, around the globe. This service is provided FREE to emergency medical providers.

Look For the Global Med-NetSM Symbol  the next time you treat an emergency patient and let us help you save more lives!
